Safety & security information

Read all information before using the device to ensure safe and proper use.
Failure to follow the instructions listed below may lead to injury to you or others, damage to the device and its accessories within a temperature range of -10°C–+40°C. Extremely high or low temperatures may cause malfunction of the device. The performance of battery may compromise when temperature is lower than 0°C.
When charging, please keep the device in a well-ventilated area. Please charge this device in an environment between 5°C and 35°C.
1. Use manufacturer-approved chargers, batteries and other accessories to prevent potential electric shock, fire, explosion or other hazards.
2. Do not replace, disassemble, modify, mechanically crush or cut the battery, as it may cause battery leakage, overheating, explosion or fire.
3. Do not use the device or battery directly in sunlight, near heat sources of heat or in a low air pressure location, which may lead to an explosion or battery leakage.
4. The battery can be charged and discharged hundreds of times at least, but it will eventually wear out.
5. The battery must be recycled or disposed of separately from household waste. Mishandling the battery may cause fire or explosion.
6. Prevent damage to your device's parts or internal circuits, do not use it in dusty, smoky, damp or dirty environments or near magnetic fields.
7. If any part of the product is cracked or damaged, discontinue use immediately and contact the OPPO Service Center.
8. Do not use your device and adhere to all safety warning regulations regarding potentially explosive atmospheres. A blasting area or areas displaying signs stating "Switch off two-way radios" or "Switch off electronic devices" in order to avoid interfering with blasting operations.
9. Observe all safety instructions for any places, especially in hospital/health care facilities, service stations, schools, and when driving, please keep the device off.
10. Do not use your device and adhere to all safety warning regulations regarding mobile device usage while driving.
11. Persons with electronic implants (pacemakers, insulin pumps, neurostimulators, etc.) are recommended to place the device more than 15 cm away from the implant or on the opposite side of the implant.
12. Do not leave your device and its accessories within the reach of small children or allow them to play with it. They could hurt themselves or others, or may accidentally damage the device.
13. Your device contains small parts with sharp edges that may cause an injury or which could become detached and create a choking hazard. Children and Minors should use the device under the supervision of a guardian to prevent swallowing.

Limited Warranty

Dear user, thank you for using this product. In case of any damage that is not caused by human factors, we will provide comprehensive warranty services according to local laws and regulations.
To protect your legal interests, please read the following notes carefully.
• Please keep your Warranty Card and Proof of Purchase for future reference.
• In case of any damage of the product that is not due to human factors, consumers are entitled to enjoy customer service free of charge by providing Warranty Card and Proof of Purchase within the warranty period.

The warranty is not applicable in the following cases:
1. The valid warranty period expires.
2. Damages are caused by human factors such as accidentally dropped or immersed in water when in use.
3. Damages are caused by human factors such as unauthorized disassembly, modification etc.
4. Damages are caused by force majeure (e.g. fires, earthquakes, and lightning).
5. Damages are caused by usage in environments not conform to the user guide or operation manual.
6. Information or Warranty Card or Proof of Purchase is inconsistent with the product serial number or has been altered.

8. The SN code of the product is missing, damaged, or blurred beyond recognition.

For more details about our warranty policy, please contact OPPO service center or visit https://support.oppo.com.

FCC Regulatory Conformance

FCC Statement
This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions.
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful to part interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.
FCC Caution
• Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
• To maintain compliance with FCC's RF Exposure guidelines, This transmitter must not be collocated or operate in conjunction with any other antenna or transmitter.
RF Exposure Information
This device meets the government's requirements for exposure to radio waves.
This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.
This device was tested for typical near Body operations kept 0cm away, and this device complies with FCC radiation exposure limits set forth for an uncontrolled environment.

Limited Warranty

Dear user, thank you for using this product. In case of any damage that is not caused by human factors, we will provide comprehensive warranty services according to local laws and regulations.
To protect your legal interests, please read the following notes carefully.
• Please keep your Warranty Card and Proof of Purchase for future reference.
• In case of any damage of the product that is not due to human factors, consumers are entitled to enjoy customer service free of charge by providing Warranty Card and Proof of Purchase within the warranty period.

The warranty is not applicable in the following cases:
1. The valid warranty period expires.
2. Damages are caused by human factors such as accidentally dropped or immersed in water when in use.
3. Damages are caused by human factors such as unauthorized disassembly, modification etc.
4. Damages are caused by force majeure (e.g. fires, earthquakes, and lightning).
5. Damages are caused by usage in environments not conform to the user guide or operation manual.
6. Damages are caused by usage in environments not conforming to product specifications.
7. Information on Warranty Card or Proof of Purchase is inconsistent with the product serial number or has been altered.
8. The SN code of the product is missing, damaged, or blurred beyond recognition.
