Declaration Letter for FCC Grant Dismissal

Date: April 2, 2026

To: Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia MD 21046
USA

Subject: Request for Dismissal of Class II Permissive Change (C2PC) / FCC ID: 2ABZJ-100-60224-03 (Category: 6GHz Fixed Client / 6FC)

To Whom It May Concern:

We, Mimosa Networks, Inc, hereby request the dismissal of the Class II Permissive Change (C2PC) granted on March 27, 2026, for the following reasons:

1. Reason for Dismissal: We intend to revise the test report to update the EIRP assessment methodology from radiated measurement to the "Conducted Power + Antenna Gain" calculation method for better technical consistency.
2. Marketing Status: We attest that no devices possessing the capabilities approved under this specific C2PC Grant have been sold, marketed, or shipped into the field as of the date of this letter. The product remains under our control.
3. Hardware Statement: We confirm there have been no hardware changes to the device. This request is strictly for correcting the test methodology and reporting data.

Respectfully,

Applicant's company name : Mimosa Networks, Inc.

Applicant's company address : 3150 Coronado Drive, Santa Clara, California, United States, 95054
