ATTN.: Reviewing Engineer

FCC ID: 2AC23-WXT3A

We, Hui Zhou Gaoshengda Technology Co.,LTD, attest that this device under FCC ID: 2AC23-WXT3A complies with device protocol requirements and operational restrictions: indoor client 6XD.

Note for Modules:

- Device protocol attestation and contention-based protocols apply to functions permanently embedded in the module and cannot be host-dependent.
- Device Restriction statements: We, the grantee, will document the physical restrictions associated with the equipment classes for host products (wired power, integral antenna, non-weatherized enclosure) as conditions of use through the host manufacturer's integration instructions.

Indoor Client (6XD):

1. Device Protocol Attestation Statement:
 - a. Contention-Based Protocol, as demonstrated in the test report, is permanently embedded in the module and is not host-dependent..
 - b. This device will only associate and connect with a low-power indoor access point (AP) or subordinate device and never directly connect to other client devices..
 - c. This device will always initiate transmission under the control of a low-power indoor AP or subordinate device except for brief transmissions before joining a network, These short messages will only occur if the client has detected an indoor AP or subordinate device operating on a channel. These brief messages will have a time-out mechanism such that if the device does not receive a response from an AP it will not continually repeat the request.
 - d. Transmissions will be lower or equal to the power advertised by the indoor low power AP or subordinate device and never above the maximum output power allowed by the FCC grant for equipment class 6XD.
2. Understanding of Statement acknowledging device restrictions:
 - a. Control of or communications with unmanned aircraft systems is prohibited, including drones.
