The image shows a black ThinkPad laptop with its screen open. On the screen, a software application named "Windcave" is running. It has a dark-themed interface. At the top left, there's a "Test Data" section showing various system metrics like CPU usage, memory, and network statistics. Below this, there are three tabs or buttons labeled "STOP", "START", and "START". The laptop's keyboard is visible, featuring a red TrackPoint in the center. The bottom right corner of the laptop lid has the "ThinkPad" logo. A small Intel Core i7 processor sticker is visible on the bottom left of the laptop body.
