Inside View of The Product

Inner Circuit Top View

This image shows the internal components of a portable electronic device, likely a small speaker or a similar audio-related device. The main component is a large, circular, silver-colored speaker or microphone driver, which is mounted on a blue printed circuit board (PCB). The PCB is populated with various electronic components, including resistors, capacitors, and integrated circuits. A black battery is visible on the left side of the device. The entire assembly is housed within a black plastic casing.
