RE: Class II Permissive Change Request
FCC ID: 2AC7Z-ESPWROOM32

To Whom It May Concern:

Please be advised that pursuant to FCC Rule 47CFR 2.1043 the manufacturer requests that the above-referenced model be approved for class II permissive change.

The reason for this request is updating the certification of the module in order for it to be used within 20cm of the end user (from mobile to portable conditions). To facilitate this change, a SAR test report has been provided with the application. There are no other changes to the module.

Thank you for your attention to this matter

Yours faithfully
