INSTALLATION

Vous aurez besoin :

Votre mot de passe
Wi-Fi / Cable Ethernet

Votre appareil
connecté

Votre Compteur

10 minutes !

1 Branchez votre Compteur

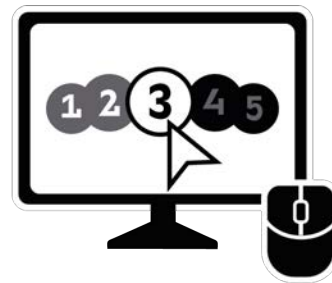

2 Allez sur :

<http://www.smiirl.com/start>

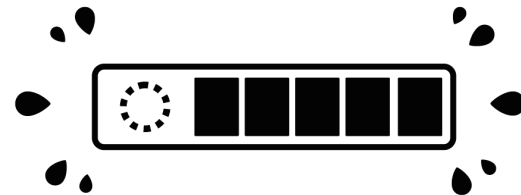

Ou scannez le QR code

3 Suivez les étapes à l'écran.

4 Votre Compteur est installé !

STATUTS DU COMPTEUR

1

Votre Compteur émet le réseau Wi-Fi «SmiirlSetup».

2

Un appareil électronique (smartphone, ordinateur...) est connecté au réseau Wi-Fi «SmiirlSetup».

3

Votre Compteur est associé à votre réseau Wi-fi personnel ou de bureau. Si le Compteur reste bloqué avec trois volets rayés, c'est probablement que le mot de passe Wi-Fi renseigné est erroné. Patientez quelques minutes, votre Compteur reviendra

4

Votre Compteur a obtenu une adresse IP.

5

Votre Compteur est connecté à Internet et peut communiquer avec les serveurs de Smiirl. Ce statut dure quelques minutes durant lesquelles il ne faut surtout pas le débrancher. S'il reste bloqué ainsi plus de 15 minutes, contactez le support Smiirl : support@smiirl.com.

6

Les volets sont vierges ou affichent 1 : vérifiez que votre Compteur est bien relié à une donnée (page Facebook, compte Instagram, URL JSON...)

INSTALLATION

You will need:

Your Wi-Fi password / Ethernet cable

Your Device

Your Counter

10 minutes

1 Plug your Counter

2 Go to:

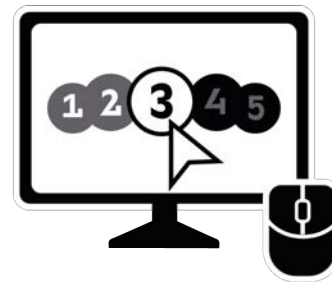

<http://www.smiirl.com/start>

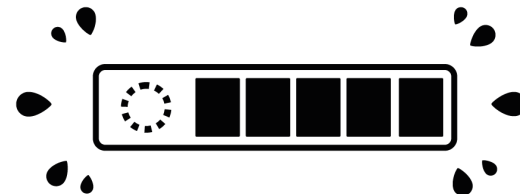

Or scan the QR code

3 Follow the steps on screen

4 Your Counter is up!

GET TO KNOW YOUR COUNTER

1

Your Counter is broadcasting the «SmiirlSetup» Wi-fi.

2

An electrical device (laptop, smartphone...) is connected to your Counter.

3

Your Counter is paired with your personal/ office Wi-fi network. If the Counter remains blocked with three crossed-out flaps, it is probably that the Wi-Fi password entered is wrong. Wait a few minutes, your Counter will automatically return to status n°1.

4

Your Counter has obtained an IP address.

5

Your Counter is connected to the Internet and can exchange data with Smiirl servers. This status lasts a few minutes during which you must not disconnect it. If it remains blocked for more than 15 minutes, contact Smiirl support: support@smiirl.com.

6

The flaps are blank or show 1: check that your Counter is linked to a data (Facebook page, Instagram account, JSON URL...)

PRACTICAL INFORMATION

INSTALLAZIONE

Avrete bisogno di:

La tua password Wi-Fi / Cavo ethernet

Il tuo dispositivo

Il tuo Contatore

10 minuti

1 Attachi il tue Contatore

2 Vai a:

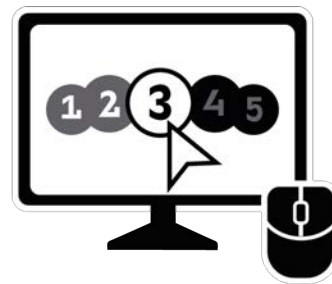

<http://www.smiirl.com/start>

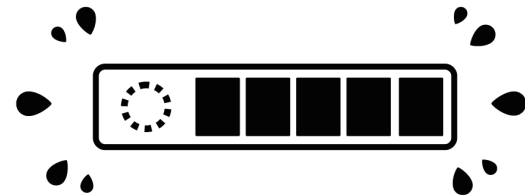

Oppure scansiona il codice QR

3 Seguire i passi sullo schermo

4 Il tuo Contatore funziona!

STATI DEL CONTATORE

1

Il tuo Contatore trasmette la rete wifi «Smiirl Setup».

2

Un dispositivo elettronico (portatile, smartphone...) è collegato alla rete del tuo Contatore.

3

Il tuo Contatore Èsconnesso alla tua rete Wi-Fi. Se il Contatore rimane bloccato con tre alette sbarrate, è probabile che la password Wi-Fi inserita sia sbagliata. Aspettate qualche minuto, il vostro Contatore tornerà automaticamente allo stato n°1.

4

Il tuo Contatore ha ottenuto un indirizzo IP.

5

Il tuo Contatore è connesso a Internet e può comunicare con i server di Smiirl. Questo stato dura alcuni minuti durante i quali non dovete disconnetterlo. Se rimane bloccato per più di 15 minuti, contatta il supporto Smiirl: support@smiirl.com.

6

Le alette sono vuote o mostrano 1: controlla che il tuo Contatore sia collegato a un dato (pagina Facebook, account Instagram, URL JSON...)

INSTALACIÓN

Necesitarás:

Su contraseña Wi-Fi / Ethernet
cable

Su dispositivo

Su Contador

10 minutos

1 Enchufe su Contador

2 Ir a:

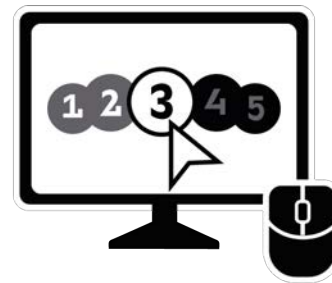

<http://www.smiirl.com/start>

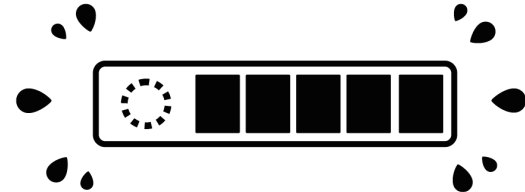

O escanear el código QR

3 Siga los pasos en pantalla

4 ¡Su contador está en marcha!

ESTADOS DEL CONTADOR

1

Su Contador emite la red inalámbrica «Smiirl Setup».

2

Hay un dispositivo electrónico (portátil, smartphone...) conectado con la red del Contador.

3

El Contador está asociado a su red Wi-Fi. Si el Contador permanece bloqueado con tres paneles tachadas, es probable que la contraseña Wi-Fi introducida sea incorrecta. Espere unos minutos, su Contador volverá automáticamente al estado n°1.

4

El Contador ha obtenido una dirección IP.

5

El Contador está conectado a Internet y puede comunicarse con los servidores de Smiirl. Este estado dura unos minutos durante los cuales no debes desconectarlo. Si permanece bloqueado durante más de 15 minutos, póngase en contacto con el servicio de asistencia de Smiirl: support@smiirl.com.

6

Los paneles están en blanco o muestran 1: comprueba que tu Contador está vinculado a un dato (página de Facebook, cuenta de Instagram, URL JSON...)

INSTALLIERUNG

Sie benötigen :

Ihr WLAN-Passwort / Ethernet
Kabel

Ihr Gerät

Ihr Zähler

10 Minuten

1 Zähler anschließen

2 Gehen Sie auf:

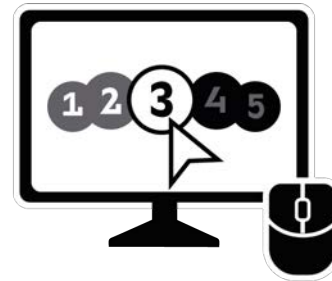

<http://www.smiirl.com/start>

Oder scannen Sie den QR-Code

3 Folgen Sie den Schritten auf dem
Bildschirm

4 Ihr Zähler ist betriebsbereit!

ZÄHLERSTATUS

1  Ihr Zähler verbreitet das «Smiirl Setup» WLAN Netzwerk.

2  Ein elektronisches Gerät (Laptop, Smartphone...) ist an das Netzwerk Ihres Zählers angeschlossen.

3  Ihr Zähler ist mit Ihrem WLAN Netzwerk verbunden. Wenn der Zähler mit drei gestreiften Klappen blockiert bleibt, ist wahrscheinlich das eingegebene WLAN Passwort falsch. Warten Sie ein paar Minuten, Ihr Zähler kehrt automatisch in den Status Nr. 1 zurück.

4  Ihr Zähler hat eine IP-Adresse erhalten.

5  Ihr Zähler ist mit dem Internet verbunden und kann mit den Servern von Smiirl kommunizieren. Dieser Status dauert einige Minuten, in denen Sie die Verbindung nicht abbrechen dürfen. Wenn er länger als 15 Minuten blockiert bleibt, wenden Sie sich an den Smiirl-Support: support@smiirl.com.

6  Die Klappen sind leer oder zeigen 1: Prüfen Sie, ob Ihr Zähler mit Ihren Daten verknüpft ist (Facebook-Seite, Instagram-Konto, JSON-URL...)

USER MANUAL

1

Plug in your Counter to the power supply

Plug in the Counter using the power cable and the adaptor provided.

Have a look at the blue label, this is where the ID of your Counter is located, you'll need this ID at step 2.

2

Set up your my.smiirl account

> Go to <http://my.smiirl.com>

> Login with your Facebook account with the FB log-in button. You can also sign up using the traditional email & password system.

> Start the installation process located at the bottom of the page.

> Enter your object ID & the full address (url) of the Facebook page you want to monitor.

3

Connect your Counter to wi-fi

> Now you need to connect your laptop/smartphone to the Wifi network « **SmiirlSetup** » broadcasted by your Counter.

> Use your web browser (internet explorer, chrome, firefox, safari...) and go to the url : <http://192.168.1.1>

> Select your Wifi network and its password.

> Click next.

Voilà!

Your Counter is now
connected to the Wifi
and ready to count
your likes!

Understand your Counter

Sometime your Counter will try to communicate with you. Here is a little dictionary that will help you understand what it's saying.

If the first flap displays stripes:
your Counter is broadcasting a
Wifi network «SmiirlSetup »

> Go to step 2

You are connected to the Wifi
broadcasted by your Counter.

Your Counter is successfully
associated to your Wifi network.
Good job !

Your Counter has an IP address.
Well done !

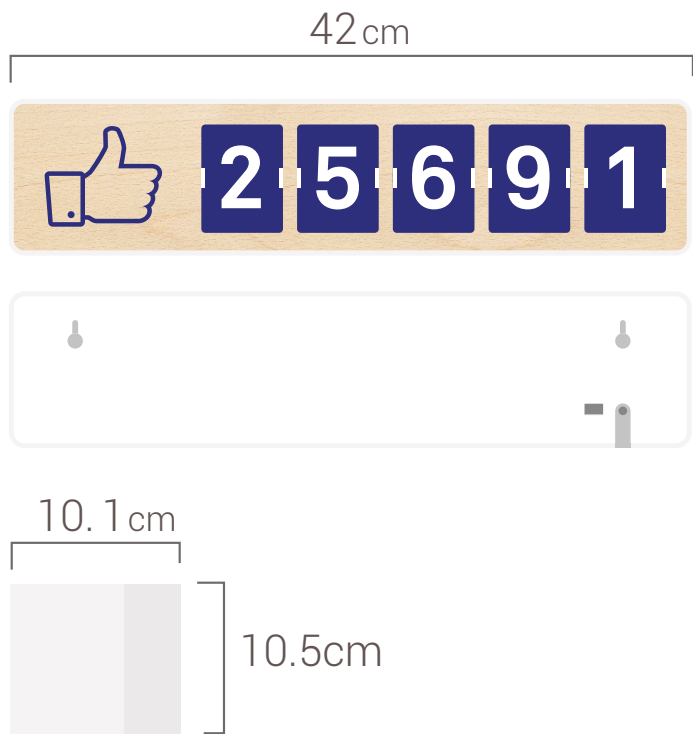

Your Counter can communicate
with Smiirl servers. Perfect !

Your Counter is fully connected
to the internet and is missing
informations from my.smiirl.com

> Go to step 3

Safety warnings

For your safety, be sure to read and follow all warning notices and instructions.

Do not open the device. Opening or removing the device cover can expose you to dangerous high voltage points or other risks. Only qualified service personnel can service the device. Please contact your vendor for further information.

Do not use your device during a thunderstorm. There may be a risk of electric shock brought about by lightning.

Do not expose your device to dust or corrosive liquids.

Do not use this product near water sources.

Make sure to connect the cables to the correct ports.

Certifications

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ Reorient or relocate the receiving antenna.
- ▶ Increase the separation between the equipment and receiver.
- ▶ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and consider removing the no-collocation statement.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

CE And European Regulations

Hereby, SMIIRL SAS declares that the radio equipment type LI7D, LI5D, FF5D, FF7D, FO5D, FO7D, CU5D, CU7D, CUSH5D, CUSH7D is in compliance with Directive 2014/53/EU as well as UK Radio Equipment Regulations SI 2017 No.1206. The full text of the EU/UK declaration of conformity is available at the following internet address: <https://www.smiirl.com/user-manual> for CE and UK.

The product has been designed, tested and manufactured according to the European RTTE directive 1999/5/EC.

Password:
☐ Remember me
Start

> Identifiez-vous avec un compte Facebook en cliquant sur le bouton Facebook. Vous pouvez aussi vous enregistrer avec un compte classique.

ADD A COUNTER

You received a counter and you want to proceed to the setup? You want to manage a counter already connected? Let's do the setup together.

Start

> En bas de page, débutez l'installation en cliquant sur « start » / « démarrer »

SETUP - OBJECT ID

Enter your object id.

Object ID

next

> Entrez l'iD et l'adresse (url) de votre page Facebook que vous souhaitez suivre.

3

Connectez le Compteur à votre réseau Wifi

> Sur votre ordinateur / smartphone, sélectionnez le réseau Wifi « SmiirSetup »

> Utilisez votre navigateur internet (internet explorer, chrome, firefox, safari...) et allez à l'url :

<http://192.168.1.1>

> Choisissez votre réseau Wifi et entrez son mot de passe.

> Cliquez sur « next. »

Voilà!

Votre Compteur est
connecté au Wifi et
prêt à compter !

Comprendre votre Compteur

Par moments, le Compteur communiquera avec vous. Voici un petit dictionnaire pour comprendre ce qu'il dit.

Le compteur diffuse
« SmiirlSetup », il n'a donc pas
encore accès à internet.

> Allez à l'étape 2

Vous êtes connecté au Wifi
« SmiirlSetup »

Votre Compteur a réussi à
s'associer votre réseau Wifi.
Bravo !

Votre Compteur à une adresse IP.
Bien joué !

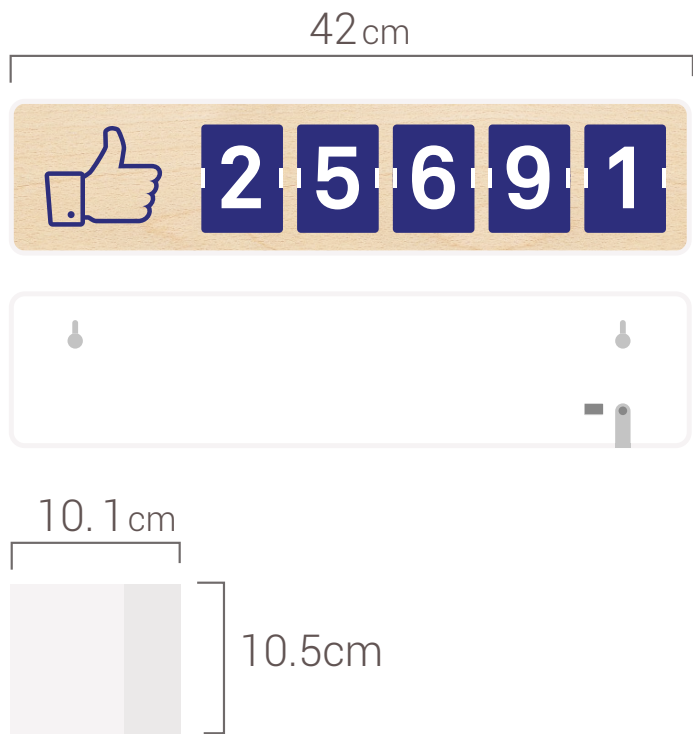

Votre Compteur a bien accès à
internet. Parfait !

Votre compteur est correctement
connecté à internet, mais des
informations manquent sur
<http://my.smiirl.com>.

> Allez à l'étape 3
