

Model and Revision Statement

GS-SHWXUXAXXX Electronic ballast

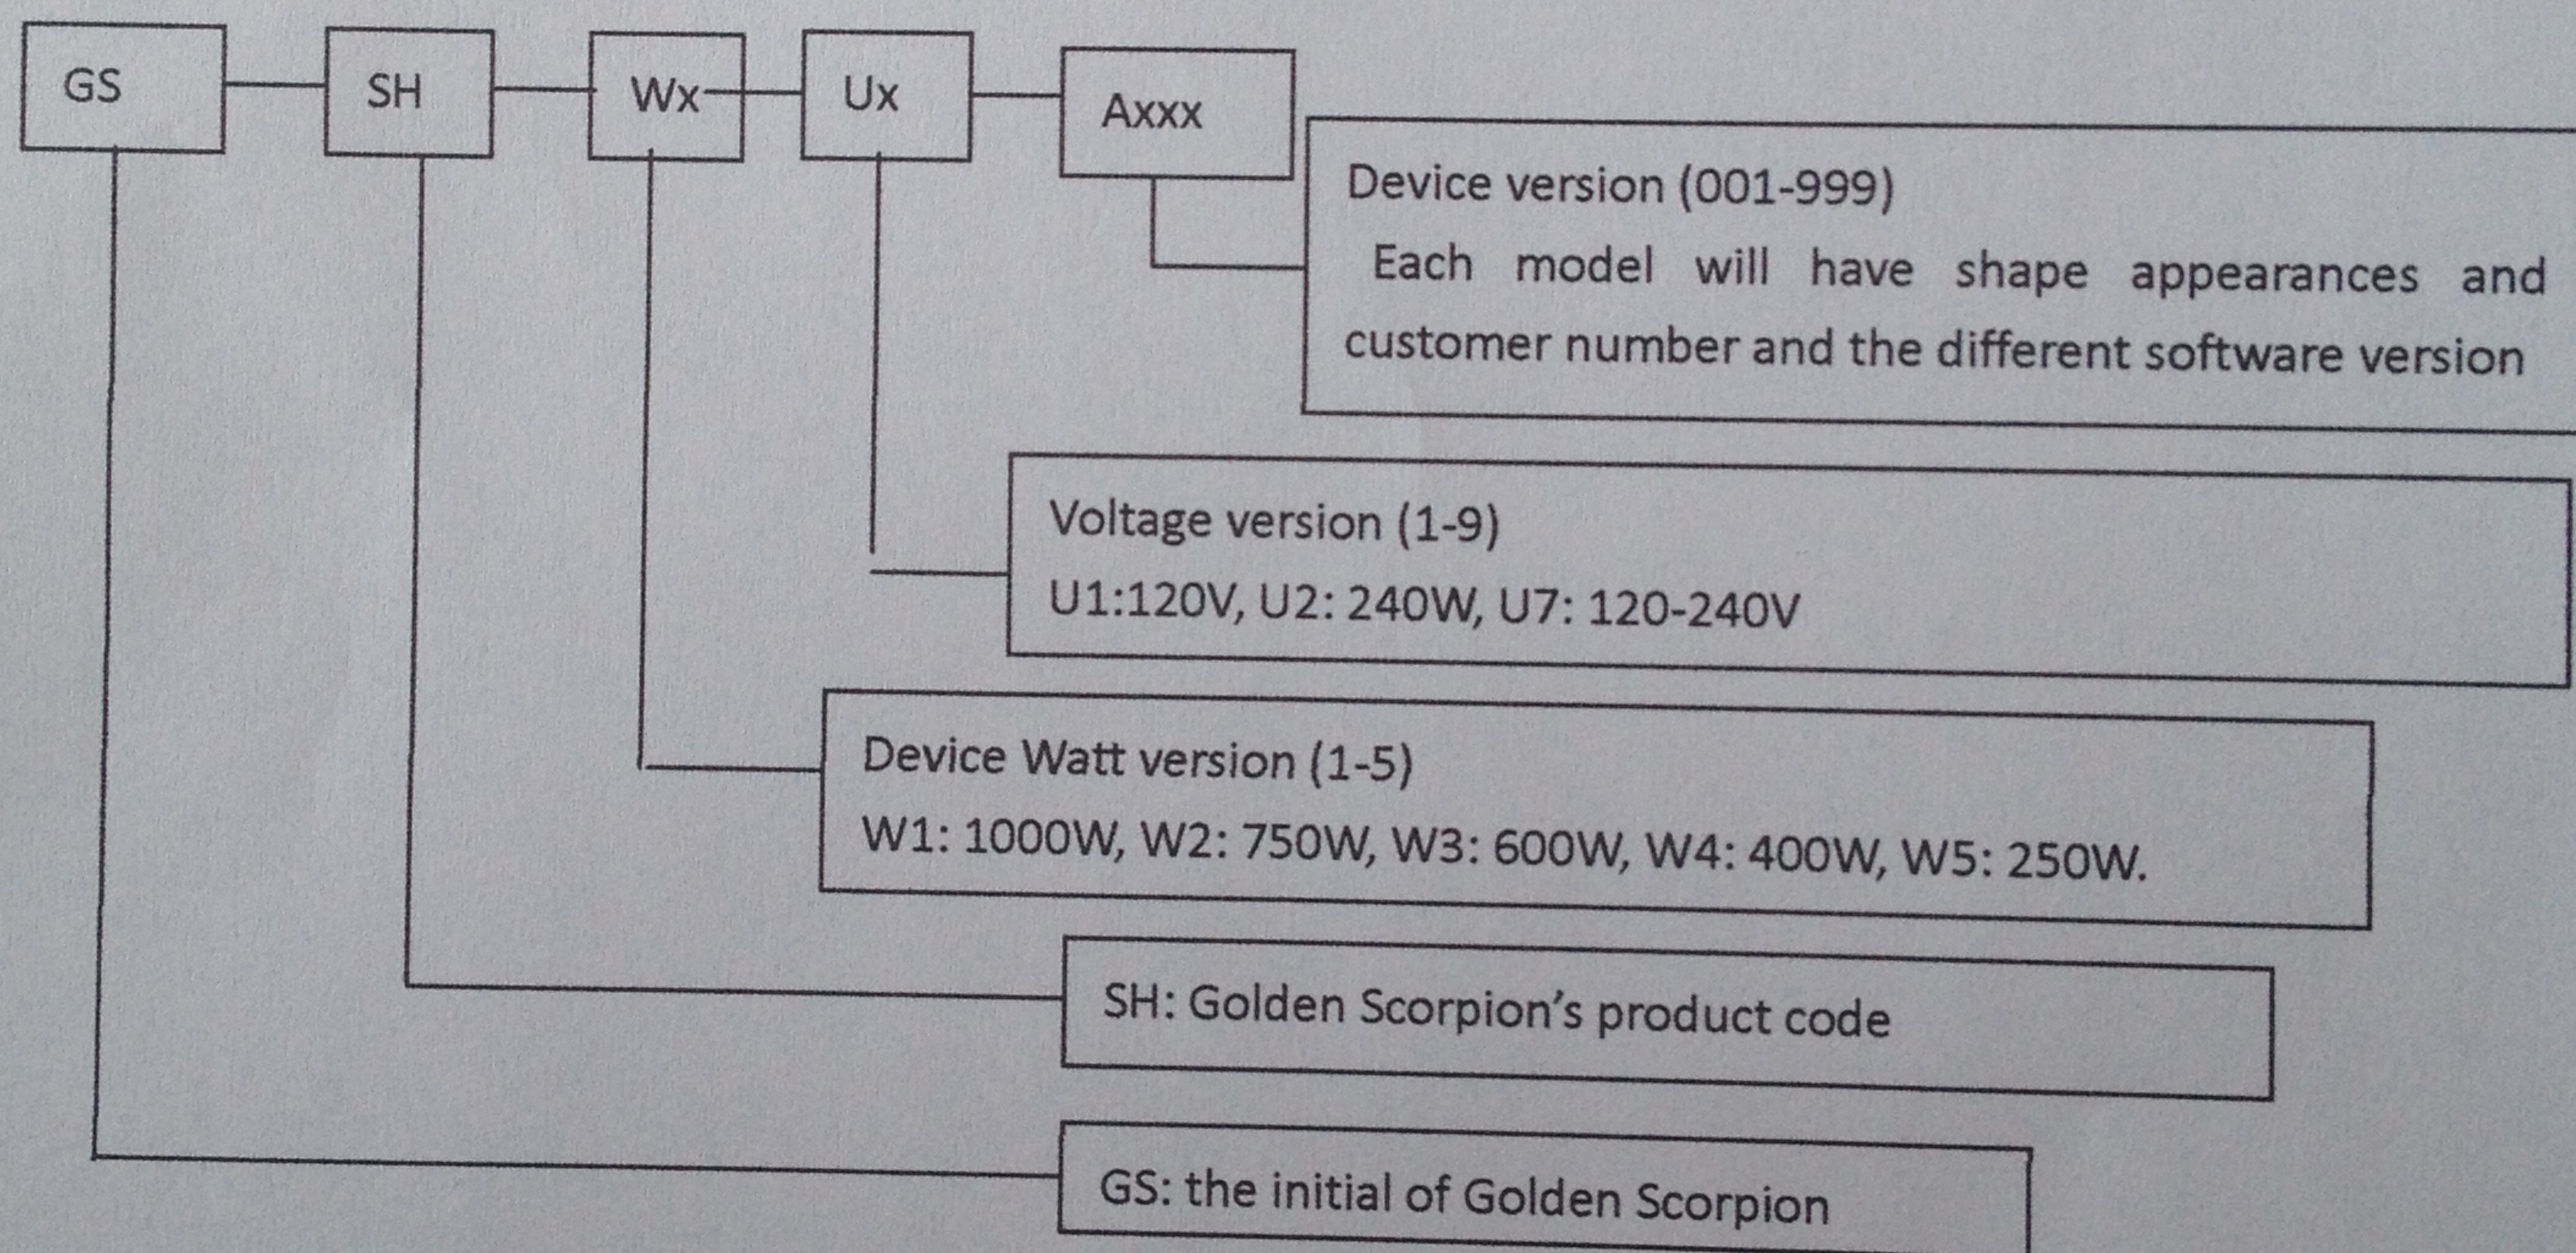

Description

The GS-SHWxUxAxxx is one type of electronic ballast series. This series will have multiple models subsequently. The main differences of these GS-SHWxUxAxxx are as follows:

1. The Trademark and logo will be different
2. Each model will have revised styling and appearances
3. The software version will be different
4. The watt is different which refer to Wx, w1 represent to 1000W, W2 represent to 750W, W3 represent to 600W, W4 represent to 400W, W5 represent to 250W.

However, the GS-SHWxUxAxxx series product will use the same PCB board; retain same size, future revisions of the product are functional, styling and software only.

Golden Scorpion Co., Ltd will be responsible for all consequences caused by various models of GS-SHWXUXAXXX, and for any of the above-mentioned differences.
