

2.4G Wireless Keyboard & Mouse Combo

User Manual

Welcome

Welcome Thank you for choosing this product. To ensure optimum performance and safety, please read these instructions carefully before operating this product. It is strongly recommended you keep this manual for future reference

Package Contents

1 x Keyboard
1 x Wireless Mouse
1 x User Manual

Keyboard

Product Specifications:

1. Battery Type: 2 AAA batteries
2. Multimedia functions.
3. USB 2.0 interface, plug & play, no driver required.
4. Compatible with Windows OS (Windows 98, 2000, XP, Vista, WIN7, WIN8, Win10).
5. Operating Voltage: 2.1-3.0V.
6. Operating Current: 10mA.
7. Sleeping Current: <40uA
8. Standby Current: 0.3-1.5mA
9. Keystroke Force: 60±10g.
10. Key Life: 3 million keystrokes
11. Dimension: 366.5 x 121.3 x 18.35mm
12. Weight: 256.38g

Keyboard Instructions

Battery Installation

The wireless keyboard uses two AAA batteries (not included). Open the battery compartment cover, take out the Nano receiver. Install the batteries into the compartment, and make sure the polarity of the batteries is correct. The positive (+) and negative (-) ends of each battery must match the positive (+) and negative (-) markings in the battery housing.

Pairing Method

Make sure the distance between the keyboard and the PC is within 3M. Plug the Nano receiver into USB port of the PC and turn on the keyboard. The blue "Num" LED will be on and red "Power" LED will flash for 3 seconds and turn off. Now the pairing is successful.

Note: If the red indicator only flashes one time then turns off, the pairing is unsuccessful. Press "Esc" + "K" to re-connect.

Functional Zone

Press the "Num Lock" button, the LED of "Num" will turn off and the numeric zone will change to functional zone.

Number 2, 4, 6, 8 are for down, left, right, up direction.

Number 1, 3, 7, 9 are for "End", "Page Down", "Home", "Page Up".

LED Indicator

Num indicator: It will show blue color when the numeric zone is on and the functional zone is off.

Caps Lock: It will show blue color when you change to capital letter.

Low Power Indicator: It will show red color and flash in every 3 seconds when the voltage is lower than 2.1V.

Wireless Mouse

Product Specifications:

1. Working Frequency: 2.4GHz
2. Channel Number: 34
3. Modulation Method: GFSK
4. Operation Voltage: 2.2-3.2V
5. Battery Type: 2 AAA batteries
6. Current Dissipation: 5±2.0mA
7. Standby Current: 0.8±0.2mA
8. Sleeping Current: 40~50uA
9. DPI Resolution: 800/1200/1600
10. Working Distance: 8-10M
11. Dimensions: 107.5 x 60 x 27.5mm
12. Weight: 53.82g

DPI Switch

The mouse supports 800DPI, 1200DPI, 1600DPI. To change the setting, press the DPI button. The default setting is 800DPI. Press the DPI button on the top of the mouse once to change from 800DPI to 1600DPI circularly.

Warning

Please read all instructions and warnings prior to using this product for the first time. Failure to read and follow these safety and usage instructions could result in fire, explosion, electric shock or other hazard that could potentially cause property damage or even fatal injury.

1. Do not modify, disassemble, open, drop, crush, puncture or shred the product.
2. Do not expose the product to water or excessive moisture.
3. Keep away from heat sources and direct sunlight to prevent heat build-up.
4. Keep away from high voltage devices.
5. This product is not a toy, keep away from children and ensure that all persons who use the product read and follow these instructions and warnings.

Disclaimer

Every effort has been made to ensure that the information and procedures in this guide are accurate and complete, no liability can be accepted for any errors or omissions and we reserve the right to make any changes without further notice to any products mentioned herein.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
