Re: Confidential Protection in Connection With the Application for FCC ID No. 2ACBD-0610, Model No. PT346SK

To whom it may concern:

Fleisher Gromes LLC and its affiliated companies is seeking equipment authorization for its device with the FCC ID No. 2ACBD-0610. Due to confidentiality of certain information that we must share in connection with this application, we request confidentiality protections of our information pursuant to Sections 0.457 and 0.459 of the FCC's rules and regulations (47 CFR §§ 0.457, 0.459).

Information for Long Term Confidentiality Protection:

1. Block Diagram
2. Operation Description
3. Schematics

We seek unlimited protection of these information because they contain very sensitive confidential information about our trade secrets, including our secret design, development and manufacturing process. These information have not been and will not at any time be shared with any third party (except to certain limited third parties under non-confidentiality agreements). If our competitors learn this information, we would be hurt and would lose our competitive advantage in the market. Therefore, it is very important to us that we be able to continue to keep this information confidential.

Information for Short Term Confidentiality Protection:

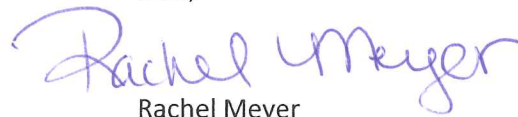

1. User Guide
2. Setup Photos
3. Internal Photos
4. External Photos

... Fleisher Gromes LLC ...
100 Bull Street, Suite 200, Savannah, Georgia 31401

We have not shared any of this information with any third parties, except to certain limited third parties under non-confidentiality agreements. If these information are disclosed before we begin marketing our product, it could give our competitors early access to non-public information about our products. That in turn would give our competitors an unfair market advantage and would cause harm to our business. Therefore, we request that FCC, for 180 days from the date of the grant of the equipment authorization, protect as confidential, and withhold from public disclosure, this information.

Thank you for your understanding and cooperation. Please contact us if you have any questions.

Best,

Rachel Meyer
