AT&T AllAccess

If your AT&T service was activated at the time of purchase, you will automatically connect to the mobile network.

To activate service:

- ① From the home screen, tap **Activate** on the AT&T AllAccess widget.

- ② Follow the on-screen steps to activate a data plan.

Once service is activated, the AT&T AllAccess widget displays data used while you're connected to the mobile network.

To monitor data usage:

- View plan and data usage details*
- Enable mobile hotspot to share your Internet connection**
- View free AT&T Wi-Fi Hot Spots in your vicinity

* Actual billed usage can be higher than estimated data usage displayed on the usage meter. For example, actual billed usage may be higher when: part of a shared data plan such as Mobile Share; multiple users with different login credentials using the same device; travelling internationally or outside AT&T's network; using the SIM card with another device. Unlimited Wi-Fi usage on AT&T's entire national Wi-Fi network is included at no additional charge with a qualifying data plan. Access includes AT&T Wi-Fi Basic. Restrictions apply. See www.attwifi.com for details. **The name "attwifi" will appear in the Wi-Fi network list when available.**

** **Req's Mobile Share Value or a min. DataPro 5GB plan.** Devices connected to a Mobile Hotspot use data from your plan. Overage charges apply if exceed monthly data allowance. Number of devices you can connect depends on your device. Performance varies based on number of devices connected and other factors. If you do not use a password, others will be able to use your Mobile Hotspot. Visit a store or att.com to learn more.
