# Home screen

You can bring all of the items (applications, shortcuts, folders, and widgets) that you use most frequently to your Home screen for quick access.

Touching the **Home** button always takes you back to the main Home screen.

- 1 : With the notification panel open, tap the top of the screen again and drag down to see the Quick Settings menu.
- 2 : Tap to access the complete Settings menu.

# Phone call

## Making a call

Enter the desired number from the keyboard and touch  to make a call.

## Answering a call

When you receive a call, swipe up to answer or swipe down to reject:

- 1 : Reject by SMS

# Contacts

You can view and create contacts on your phone and synchronize these with your Gmail contacts or other applications on the web or on your phone.

**1** : Search in **Contacts**

**2** : View your favorites

**3** : Open the Quick contact panel

Long press to select contact(s) to delete

**4** : Add new contact

# Messaging

You can create, edit, and receive SMS and MMS.

An SMS will be converted to MMS automatically when media files (image, video, audio, slides, etc.) are attached or subject or email addresses are added.

**1** : Send the text message

**2** : Insert emoticons

# Gmail

The first time you set up your phone, you can select to use an existing Gmail account or to create a new one.

- 1 : Filter starred emails
- 2 : See options and settings
- 3 : Swipe right to delete the email  
Swipe left to star the email
- 4 : Create an email

# Help

To get help:
