

Request for Class II Permissive Change

FCC ID: 2ACCJH201

Date: 12/02/2025

TO: Federal Communication Commission

Please be notified that we, the undersigned, TCL Communication Ltd. declare that the reasons for this Class II permissive change are as below:

1. New model T440R did not support DM
2. T440R disabled the GSM bands
3. T440R added eSIM
4. T440R Memory changed from 3G to 2G
5. T440R removed the charging port
6. T440R used new battery and usb cable

Other than the above-mentioned software modifications, the hardware baseband remains unchanged. GSM, LTE Band 13/Band 48, and NR Band 48 have been disabled, while support for UMTS Band 4, LTE Band 7/Band 14, and 5G NR Band 14 has been newly added. For this reason, we have re-conducted Electromagnetic Compatibility (EMC) testing, and carried out full tests for Radio Frequency (RF), Specific Absorption Rate (SAR), and Hearing Aid Compatibility (HAC) respectively, targeting the newly added bands.
