USER INSTALLATION MANUAL

Requirements of pollution control markings on China electronic information products

In order to control and reduce the environmental pollution caused by the wastes of electronic information products, promote the production and sales of low-pollution electronic information products, and protect the environment and human health, only toxic and hazardous substances contained by the products are given below according to the Regulations of the Chinese Government for Electronic Information Products Pollution Control:

Part name	Toxic and hazardous substances or elements					
	Lead (Pb)	Hg	Cd	Chromium VI (Cr(VI))	PBB	PBDE
Upper and lower covers	○	○	○	○	○	○
Machine engine (aluminum or aluminum magnesium alloys)	○	○	○	○	○	○
Lens	○	○	○	○	○	○
Plastic assemblies	○	○	○	○	○	○
Metal parts (SECC/SFTE/SFPC)	○	○	○	○	○	○
Spring(SUS/SUP)	○	○	○	○	○	○
Spring sheet (fast cut phosphor bronze)	○	○	○	○	○	○
Rubber assemblies	○	○	○	○	○	○
Fan assemblies	×	○	○	○	○	○
Base board assembly	×	○	○	○	○	○
Cable and wire	○	○	○	○	○	○
Power cord	○	○	○	○	○	○
Power socket assemblies	○	○	○	○	○	○
Metal and plastic bracket frameworks	×	○	○	○	○	○
Label/Name Plate	○	○	○	○	○	○
CD/Manual	○	○	○	○	○	○
Mylar	○	○	○	○	○	○

○: It means that the content of this hazardous substance in all homogeneous materials of the part is lower than the limit value stipulated in SJ/T11363-2006.

×: It means that the content of this hazardous substance in at least one homogeneous material of the component is greater than the limit value stipulated in SJ/T11363-2006 Electronic Information Product.

FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on.

The user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Description of environmental service duration

Duration of service of the electronic information products under normal use conditions described in the manual shall be 10 years, which includes no leakage of toxic and harmful substances that would cause environmental pollution or harm to human body and property.

The product is only applicable within an area of 2000M.

Statement

This is a Class A product. In a domestic environment, it may cause radio interference, in this case the user may be required to take practical measures against interference.

Installation Instruction

I. Disassemble the stand and the rear cover

1. Remove the cover lid and six screws, disassemble the stand.

1. Remove 15 screws on the rear cover and disassemble the rear cover.

II. Install the motherboard (compatible up to 305*244mm ATX Micro ATX/ITX/MINI ITX motherboard and up to 60mm cooler module.)

1. Install the IO board as the picture shown.

2. Lock 9 PWM 3*5 screws on the PC board.

1

III. Install the dependent graphic card (machine with integrated graphic card is not required for this step).

1. Insert the dependent graphic card in the slot of PC board. Lock 2 pieces of PWM 3*5 screws on the graphic card.

VI. Install the battery

1. Install the power supply as the picture shown on the left and lock 2 pieces of hexagonal screws.

V. Install the HDD.

1. Install the HDD plate with cushion by correct direction and lock the hexagonal screws on the HDD.

2. Lock other screws to firm the HDD.

VI. Install the ODD (SATA Notebook ODD)

1. Cut the tape on the six sides carefully and make it the plate.

2. Lock the ODD with PM 2*5 screws.

3. Insert the DVD in the cover and lock with PWB 3*6 screws.
