Overview

64seconds, Inc. is seeking an original modular approval of a 2.4 GHz hybrid FHSS radio. This module is a small PCB which is intended to be soldered to a host PCB when in use.

A letter addressing the eight requirements of Part 15.212, for modular approval was submitted. No request for confidentiality was made.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
