

SH1 Notice Before Using 01 01. Notice Before Using Thank you for purchasing the Bluetooth® Headset SH1. Please read this User's Manual completely before you use the Headset. SH1 designed for listening the high quality music wirelessly that based on the latest Bluetooth® wireless technology. SH1 can be easily connected to a mobile phone for call conversation and music listening. It is also capable to connect to the other Bluetooth®-enabled devices like Notebook, iPod etc. SH1 is compliant with Bluetooth V3.0 specification, supports HSP, HFP, A2DP and AVRCP profiles. Please make sure your phone or other device supports these profiles.	SH1 Specification 02 02. Specification Bluetooth® specification: V3.0 Supported profile: HSP, HFP, A2DP, AVRCP Operation range: Up to 10 meters Talk time: 6 hours Play time: 5 hours Standby time: 200hours Charge time: 1 Hours	SH1 Package Contents List 03 03. Package Contents List Please inspect this package and refer to the package contents list below to verify all items were included in this package: 1. SH1 Bluetooth® headset(1) 2. USB Charging Cable(1) 3. User's Manual(1) 4. Ear Cap (2)	SH1 SH1 Bluetooth® Headset Overview 04 04. SH1 Bluetooth® Headset Overview ① Ear Cap ② Indicator ③ Volume Up/Previous ④ Volume Down/Next ⑤ Pairing/Answer,Power/Play 	SH1 Battery information 05 05. Battery information The device is equipped with an integrated lithium-polymer battery. The battery cannot be replaced. Do not attempt to remove the battery from the device since it would damage the device. The full performance of a new battery is not achieved until after two or three complete charging-discharging cycles. The battery can be charged and discharged several hundred times, but it loses its capacity over time. Disconnect the SH1 from the power supply as soon as the battery is fully charged, overcharging would reduce the service life of the battery. A charged battery will lose its capacity if it is not used on a regular basis. Important: Ensure that the battery is fully charged if you do not use the device for a long period of time. To avoid a complete discharge of the battery, the SH1 should be charged at least every 3 months.	SH1 Charging the battery 06 06. Charging the battery The SH1 is operated with a rechargeable battery. Charge the battery completely before its first use. Read the section "Battery information" before starting the charging process. 1. Connect USB cable to a general USB power supplier. 2. Connect the charger to the correct outlet. 3. When the charger is connected to the headset, the red indicator light will turn on. Charging the battery fully may take up to 1hours.  NOTE: For first time use, please charge the headset fully. - The fully charged battery has power for up to 5 hours of talk-time and 4.5 hours music playing time, and up to 300 hours of standby time. However, the talk and standby times may vary when used with different mobile phones or other compatible Bluetooth® devices, usage settings, usage styles, and environments. When the battery power is low, the headset will remind you by voice prompt "Battery low" every 20 seconds, and the red indicator light starts to flash. - For using the SH1 with iPhone, an additional battery meter () will be activated and the remaining battery capacity will display on your phone.	SH1 Charging the battery 07 07. Pair to your Bluetooth® phone Before you use your headset the first time, you must pair the unit with a Bluetooth® enabled mobile phone. Pairing is a one-time process and required only for the first connection with the Mobile phone. The SH1 can be connected with two mobile phones simultaneously. 1. Keep the SH1 within 1 meter range of a Bluetooth®-ready Mobile phone. 2. Press and hold the Power/Play button for about 5s, the indicator light will flashes red and blue intermittently, the device is now in pairing mode. 3. Find the Bluetooth® setting of your Mobile phone and start the search for Bluetooth® devices. (For further details, please read the operating instructions of your Mobile phone).	SH1 Pair to your Bluetooth® phone 08 08. Turning headset on /off 4. From the list of devices found, select the "SH1". 5. If required, enter the PIN code "0000" and confirm the entry. Once the pairing process was successful, the SH1 will connect to Mobile phone automatically then switch to standby mode, the indicator will flash blue every 5 seconds. Turn on your headset Long press the Power/Play for 3s to turn on your headset. If your headset has completed the pairing process successfully, when the headset is turned on, it will connect to the phone you last connected automatically. Please ensure your phone's Bluetooth® function is active. Turn off the headset Long press the power button for 3s to turn off the headset. the Red indicator will flash red. NOTE: - If pairing is not completed within 2 minutes, the headset will turn off. If this happens, please repeat the pairing steps. - The SH1 supports Multi-connection that allows for the simultaneous use of the SH1 with two mobile phones. After pairing successfully with 2 mobile phones, switch off the headset and switch on again, the headset will connect to both 2 mobile phones automatically. Otherwise, you can connect the headset on the cellphone manually.	SH1 Turning headset on /off 09 09. Using for music play Play/Pause Press Power/Play button to get the music play or pause. Federal Communications Commission (FCC) Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

The equipment must not be co-located or operating in conjunction with any other antenna or transmitter.
