4、Operation steps

4.1 Start Using

Before using your Bluetooth headset, please refer to the following steps:

1. Charge the battery fully before you use the headphones for the first time.
2. You can use a computer to charge, or any device that is USB supported like a general 5V USB adapter etc. When the headphones is charging the red light is on. When the headphones are fully charged is show blue light and the charging cable can be removed.
3. During pairing, make sure that the Bluetooth headset and your phone are within 0.5 meters.
4. Make sure that the Bluetooth headphones and the phone are within 10 meters when in use.

4.2 Turning on and off

1. To turn on: Press MFB about 3 seconds ,when the red and the blue lights alternately flash. You will hear “On music” .
2. To turn OFF: Press MFB for at least 3 seconds ,when the red and the blue lights alternately flash. You will hear “Off music” .

4.3 Pairing your phone using Bluetooth

1. Make sure the headphones is turned off.
2. During pairing, make sure that the Bluetooth headphones and your phone are within 0.5 meters.
3. Put your headphones in pairing mode by pressing MFB for approx. 3 seconds, when the red and the blue lights alternately flash, after pairing the blue light slowly .
4. Follow the instructions that came with your phone or device. If your phone requires a pass code, press 0000. If the headphones have been paired successfully, after pairing the blue light slowly .

4.4 Reconnecting the headphones

1. Using your headphones: Press MFB for 3 seconds to reconnect. Select “Accept connection”on your phone if prompted.
2. Using your phone: check the list of paired devices on your phone, select **ME-898** to connect.

Tips:

1. When the Bluetooth is disconnected or removed, and the symbol  is not visible on the phone screen, please reconnect

the headphone according to the right steps.

2. If the Bluetooth connection is lost for more than 15 minutes, the headphones will go into power-saving (shutdown) mode. If you want to restore the connection, press MFB or use the phone to reconnect.

3. When you turn the headphones back on it will automatically connect with the phone that was last used. You have two options to reconnect:

1. Using your headphones: Press MFB for 3 seconds to reconnect. Select “Accept connection” on your phone if prompted.
2. Using your phone: check the list of paired devices on your phone, select **ME-898** to connect.

4.5 Removing Connection

1. Turn off your headphones or your phone.
2. Disconnect using your phone menu.

Remark: If the headphone and your phone out of 10 meters, it will be disconnected. For most of Bluetooth mobile phone will automatically connected within 15 minutes. If it is disconnected over 15 minutes, the headset will go into shutdown mode.

4.6 Using phone functions with your Bluetooth headphones

1. To answer a call

When the phone calling, press MFB button to answer the call.

2. To finish a call

Press MFB or press the ‘End Call’ button from your phone.

3. Redial last number

Press MFB twice to dial the last number your phone called.

4. Stop dialing/calling

When you dial a number by mistake, or the other person doesn’t answer, press MFB to stop calling.

5. Reject a call

Press MFB for about 2 seconds to reject the call.

4.7 Listening to music

1. Choose a song from your phone and press PLAY. If you want to pause or resume the music, press PLAY.
2. When playing a song, press the VOL+ or VOL- button to adjust the volume.
3. Press the PREV button to skip back to the previous song and press the NEXT button to skip forward to the next song
4. If you answer a call while listening to music, the music will stop playing, and will continue after the call ends. The same thing happens when making calls.

4.9 Using your headphones with wires

Insert the 3.5mm jack cable into the hole on the left side of the headphones.

Use your computer or other device to play songs, etc.

Tips! The Bluetooth volume control doesn’t work when connecting through a wire, use your computer/mobile phone to adjust the volume.
