TO WHOM IT MAY CONCERN

Per the FCC's "General Guidelines for Labeling and Other Information Required to be Provided to Users" (784748 D01 General Labeling and Notification v09r01, 2 July 2018), Section 4 "Certification":

- The subject device, ABT20, does not provide a surface large enough to print the FCC ID, nor does it provide a display upon which the ID could be shown;

Therefore:

- The FCC ID and compliance notification has been included in the User Manual;
- The FCC ID is on the shipping packaging;

Sincerely,

Sébastien Alifonso

EMBT0 *BLUETOOTH*® MODULE LABELING

Due to the small size of the product, it is impractical to label the units individually with the certification markings. Therefore, units are shipped in vacuum sealed bags and labelling on each bag includes the following regulatory markings:

Additionally, the exterior of the boxes include a label with the following regulatory markings.
