

Attestation of Compliance with FCC Covered List Software Requirements

Date: September 18, 2026

To: Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046-1609

Model: NJR4275
FCC ID: 2ACUJR4275

To Whom It May Concern:

This letter serves as an attestation that the software to be loaded prior to marketing of the equipment identified above is not "covered" software manufactured by any entity including predecessors, successors, parents, subsidiaries, or affiliates or any entity which has rebranded or relabeled the software produced by the entity(ies) identified on the "Covered List.", as outlined in FCC 22-84 and KDB 986446. Specifically, the undersigned certifies that the equipment for which authorization is sought:

1. **Does not contain** cybersecurity or anti-virus software produced or provided by **Kaspersky Lab, Inc.** or any of its successors, assignees, parents, subsidiaries, affiliates, or any entity that has rebranded or relabeled software produced by the entities.
2. **Does not have the capability** to store, run, or deliver any software identified on the FCC Covered List, including but not limited to cybersecurity and anti-virus software.

This attestation is based on a thorough evaluation of the device's design, functionality, and software environment. The undersigned affirms that the information provided is accurate and complete to the best of their knowledge.

Pursuant to KDB 986446 D01 Covered Equipment Guidance, the evaluation of the product identified above shows compliance for the reasons given in following table:

Evaluation regarding the Covered List Software:		
Compliance Methodology	Evaluation Process	Result
Device is Inherently compliant	☒ The chipset(s) used are not capable of running cybersecurity and/or anti-virus software.	Compliance
	☒ The memory configuration does not allow the execution of cybersecurity and/or anti-virus software.	Compliance
	☒ The storage capacity does not allow the running of cybersecurity and/or anti-virus software.	Compliance
	☒ The operating system used is not capable of running cybersecurity and/or anti-virus software.	Compliance
Device is not Inherently compliant	☐ Evaluation based on software bill of material.	
	☐ Evaluation based on scan for running software on the device.	
	☐ Evaluation based on filesystem scan for cybersecurity and/or anti-virus software.	
	☐ Evaluation based on running software check.	

The equipment for which authorization is sought complies with the applicable rules and fulfills the requirements specified in the above-mentioned KDB.

Sincerely,

Signature:
