

Attestation letter

Date: November 07, 2022

Letter of Attestation for single modular approval

Models: NJR4652F2S1, NJR4652F2S2
FCC ID: 2ACUJR4652

We, Nisshinbo Micro Devices Inc., states that our products NJR4652F2S1 and NJR4652F2S2 are comply with the requirements in KDB Publication 996369 as Full Modular Approval Transmitter.

In accordance with the KDB Publication 996369 D03 OEM Manual v01r01 (dated on 2022-10-25), we provide integration instructions to each host product.

Furthermore, as per the FCC rule § 15.255, following restrictions are existing for use in any host product.

As per the § 15.255 (a), Operation is NOT permitted for the following products:

- (1) Equipment used on satellites.
- (2) Field disturbance sensors (hereinafter, FDS), unless the field disturbance sensors are employed for fixed operation.

Fixed FDS is only permitted, Vehicular radar application is NOT permitted under the current FCC rule.

Above limitations will be provided by our OEM instruction manual to all host manufacturer in order to ensure that how these modular transmitters are properly installed in any host product.

Sincerely,

By:
