Mute mode || Adjust volume || Change melodies

How to Install

Install the transmitter as following:

(NOTE: Don't install it on the metal surface or it will lower the transmitting range.)

Way 1

Tape it with double side tape

1. Tape double sided tape on the back

2. Tape the transmitter on the wall

Way 2

Use the screws

1. Separate the key cover from the transmitter.

2. Fix the plastic bolt cap in the wall.

3. Screw the bracket of transmitter to the plastic bolt cap.

4. Cover the transmitter again.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Self-powered Wireless Doorbell

Battery-free, work permanently

PRODUCT OF WUHAN LINPTECH

Wuhan Linptech Co. Ltd is a high-tech company supported by Huazhong University of Science and Technology. It looks more like a Lab than a company. Our engineers are all technology fans, and devote fully to develop more new, interesting, environmental friendly and easily-used products. If you have any ideas or suggestions to our products or us, please feel free to contact us at your convenience.
