Modular Transmitter Approval Request

Federal Communications Commission
 Equipment Authorization Branch
 7435 Oakland Mills Road
 Columbia, MD 21046

Company name:
FCC ID: 2AD2W-WM260413

Gentlemen,

In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Certification Guide v04'. FCC ID 2AD2W-WM260413 has been examined against the following requirements.

Items to be covered by Single modular transmitters.

Requirement per 15.212 and KDB 996369 D01 'Modular Certification Guide v04	Y/N	Comments/ Explanation from Grantee (Explain why product complies/how it is achieved)
1. The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	Y	Module with shielding cover
2. The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Y	Yes, WM260413 It has the functional requirements
3. The module must contain power supply regulation on the module	Y	The modular has an onboard 3.3V regulator(integrated in RF-WM-C3B1).
4. The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Y	The modular has a PCB Antenna which comply with the antenna requirement of Section15.203.
5. The module must demonstrate compliance in a stand-alone configuration	Y	The modular was tested in a standalone configuration apart from host units.
6. The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	Y	The modular has its own FCC ID number.
7. The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee	Y	Yes, This module (WM260413) meets the required conditions
8. The module must comply with RF exposure requirements	Y	RF cexposure evaluation performed at 20cm.

A limited modular approval (LMA) may be granted for single or split modular transmitters that comply partially with requirements above.

Name: Chaim Piekarski

Date: 2026/5/12

Title: Chief Executive Officer

Signature of applicant

A handwritten signature in black ink, appearing to be 'Chaim Piekarski', written over a light gray background.
