View 1****EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a blue printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is circular and features various electronic components, including a large black integrated circuit (IC) at the top, several electrolytic capacitors, and a smaller IC at the bottom right. The component is placed on a blue textured surface. A black ruler with white markings is positioned horizontally and vertically around the component for scale. The horizontal ruler shows markings from 0 to 100 mm, and the vertical ruler shows markings from 0 to 100 mm.
Solder Board-Component View 2	 A photograph of the same blue printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. The component is circular and features various electronic components, including a large black integrated circuit (IC) at the top, several electrolytic capacitors, and a smaller IC at the bottom right. The component is placed on a blue textured surface. A black ruler with white markings is positioned horizontally and vertically around the component for scale. The horizontal ruler shows markings from 0 to 100 mm, and the vertical ruler shows markings from 0 to 100 mm.

Solder Board-Component View 5	 A photograph showing a small blue PCB component, labeled HLK_VB02_V1.3, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component has several surface components, including a black circular component and a silver component.
Antenna View	 A photograph showing the same blue PCB component from a different angle, highlighting the antenna structure. A red box labeled "WIFI/BT Antenna" is drawn around the antenna area, with a red line pointing to it from the label.
