5. SUPPORT

5.1 FAQ

Problem	Solution
I hear crackling noises	-Bluetooth is a radio technology that is sensitive to objects between the headset and the connected devices. Ensure the headset and the connected device are within range (up to 10meters or 30feet)
I cannot hear anything	-Increase the speaker volume -Ensure that the headset is connected to a device
I am having Bluetooth connection problems	-Check your mobile device's Bluetooth menu and delete/forget the headset. Re-connect the headset to your Bluetooth device following the Bluetooth connection instructions
Will the headset support other Bluetooth equipment ?	-The headset is designed to work with Bluetooth mobile devices. It can also support other Bluetooth devices that can support a headset, hands-free and / or advance audio distribution profile.

5.2 HOW TO CARE FOR YOUR HEADSET

- Always store the headset with the power off and safely protected
- Avoid storage at extreme temperatures (above 60℃/140°F or below -40℃/-40°F. This can shorten battery life and may affect operation. High temperatures may also degrade performance.
- Do not expose the headset to rain or other liquids.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ☐ Reorient or relocate the receiving antenna.
- ☐ Increase the separation between the equipment and receiver.
- ☐ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ☐ Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions : (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
