RE: Electronic method for label FCC: 2AD9Z-INS1011976 and IC:12763A-INS1011976

To Whom It May Concern:

Thermo Fisher Scientific Inc. will place the regulatory info for the RFID 2AD9Z-INS1011976 (FCC) 12763A-INS1011976 (IC) in electronic format on the Genetic Sequencer that it is installed within. The RFID board is not accessible to end users of the equipment.

The procedure to access the regulatory info is contained within the user guide and requires two button presses to access.

From the main screen press Options, then Regulatory info to see display:

Signatory

A handwritten signature in blue ink, appearing to read "Scott Taylor".
