

## Modular approval Declaration letter

We , Libre Wireless Technologies Inc. apply modular approval for

Product Name: WiFi Media Streaming Module

Model: LS9AD-AC11DBT; LS9AD-AC11DBT-V; LS9AD-AC11DBT-GV

FCC ID: 2ADBM-LS9ADAC11DBT

According to 996369 D01 Module Equip Auth Guide v01r04 and 15.212 requirements:

1) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly;

Answer; Yes, All the main radio frequency circuitry and components are shielded.

2) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal;

Answer : Yes, All inputs to the modules are buffered through logic or microprocessor inputs.

3) The modular transmitter must have its own power supply regulation.

Answer : Yes, DC/DC converter is used for modular power supply regulation.

4) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b);

Answer : Yes. Device is equipped with specific antenna supplied by the manufacture, which can't be replaced.

(5) The module must demonstrate compliance in a stand-alone configuration;

Answer : Yes, the module has a regular hardware and firmware configuration to demonstrate the compliance.

(6) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements);

Answer : Yes. The modular has a permanent fixed label, and the statement was listed in the User Manual;

(7) The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee;

Answer : Yes, the module complies with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee.

(8)The module must comply with RF exposure requirements

Answer : Yes, transmitter meets MPE calculation of 47 CFR 1.1307. Refer to MPEReports and Refer to modular installation manual
