

The antenna type is a chip antenna operating at 2.4GHz.

The manufacturer is Johanson technology and the part number is 2450AT07A0100.

The max input power is 2W, and has an impedance of 50 ohm.

The max gain is 1 dBi typically, and -1.5 dBi typically.

The size of the antenna is:

L= .039 +/- .004 inches

W= .020 +/- .004 inches

T=.014 inches

The operating temperature is -40 to 85C.

The return loss is -6.5dB typically.
