Re: FCC ID: 2ADDKFLY4KW11

To Whom It May Concern:

The following application is submitted on behalf of our client, 360fly, Inc., for evaluation of their models FLY4KW01 and FLY4KW11 for certification under FCC Parts 15.247 and 15.407.

The FLY4KW01 and FLY4KW11 are 360-degree cameras which can be body-worn or installed in vehicles. The two models are identical and differ only by the top housing design. The cameras include a Bluetooth+BLE/Wi-Fi transceiver. Preliminary measurements were performed on FLY4KW11 and complete measurements were performed on the FLY4KW01, which was deemed representative the product family.

The FLY4KW01 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Sam Wismer". The signature is fluid and cursive, with the first name "Sam" being particularly prominent.
