

Winner Wave Limited

Radio Function Disabled Declaration Letter

Hereby, we

Name: Winner Wave Limited

Address: Unit 2003 Cheong Tai Commercial Building 287-289
Reclamation Street, Kowloon, Hong Kong

Declare that the following product(s):

FCC ID: 2ADFS-OPUS-RX

incorporates hardware capable of supporting 5 GHz RLAN operation. However, the following frequency bands are disabled for products marketed and sold in the United States:

- U-NII-2A: 5250–5350 MHz
- U-NII-2C: 5470–5725 MHz

The above radio functions are disabled by the device firmware/software configuration and are not available for normal operation.

The end user has no access to enable or configure operation in these disabled frequency bands. There is no user-accessible setting, country code selection, software option, or other control mechanism that would allow the end user to activate the U-NII-2A or U-NII-2C bands.

The disabled functions will remain disabled in all production units marketed under the above FCC ID in the United States.

We further confirm that no software, firmware, user interface, or installation procedure provided to the end user will enable operation in the above-mentioned frequency bands.

Should you have any questions regarding this declaration, please contact us.

Sincerely,

Signature:
