

LETTER OF CONFIRMATION

Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

2014-12-16

We the undersigned confirm that we fully control the installation and that the modules are only installed into our own products.

We confirm that our host devices will receive verification testing anyway and the module will be re-tested in the host at that time.

We confirm that we will re-test the emissions and any other parameters which could be affected by the installation.

We confirm that any changes to the module's EMC performance will be dealt with by a Permissive Change; whereby a degradation in module performance would be a C2PC and any other changes would be a C1PC.

This confirmation refers to module 5E902029 with FCC ID 2ADFV-5E902029FCC.

Sincerely,

A handwritten signature in blue ink, appearing to be 'G. Schuster', written over a horizontal line.

(DI Günter Schuster, Technical Manager BU cHMI)
