PCII Request / Re-assessment
FCC ID: 2ADFV-RFM-1-BTWNF granted on 01/15/2018

TO WHOM IT MAY CONCERN

Pursuant to CFR § 2.1043, Bernecker&Rainer, Industrie-Elektronik Ges.m.b.H hereby requests a Permissive Change Class II / Re-assessment.

This modular approved NFC transmitter operates with an already FCC certified Bluetooth/WLAN modular approved transmitter mounted on the same PCB.
The original filing just covers the simultaneous transmission of the NFC portion with Bluetooth Low Energy and WLAN.
Due to the fact that the Bluetooth Basic Rate and Enhanced Data Rate of the Bluetooth/WLAN RF Module are now enabled by firmware,
the simultaneous transmission with the NFC portion is added accordingly.

The following new exhibits will be uploaded:
- Test Report on Simultaneous Transmission for NFC with Bluetooth BR/EDR

Sincerely, in the Name of Bernecker&Rainer, Industrie-Elektronik Ges. m.b.H.,

Anton Stang
