Download the "Clever Dog"

3. Registration and login

Open the App and click "Sign up" to register; if you already have a login ID, please click "Sign in"

Setup video

- Add device
 - Enter into Homepage, click "+" and choose "Intelligent Camera"

- After the device is powered on, check whether the indicator light is blue and flashing or the sound "Di-di" is ringing. If not, press the RESET button for a long time. Wait until the RESET indicator is blue flashing or the sound "Di-di" is ringing, then click "Yes".

- configure network

- On the "add device" page, select the device CID network first (show as picture 1), then configure it with home/office network (shown as picture 2).

Note: If there is no device CID network when configuring, please refer to below IOS settings route to find it.

- iPhone: System settings --> click "WLAN" and choose "DOG-*****" to connect, enter the code 111111111; then back to the Client and App "Next"

Note: It's normal that Wi-Fi may auto switch between dog wifi and home/office wifi while configuring.

- Add successfully, please enjoy.

Correct Disposal of this product. This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

FCC caution

Federal Communication Commission (FCC) Radiation Exposure Statement
When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements.

FCC statements:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
