

A photograph of a blue printed circuit board (PCB) with a grid of holes. A white label with a black arrow pointing to the right is affixed to the board. The label is partially obscured by a white rectangular area. To the right of the label, a yellow connector is plugged into a port. The text "D2A" and "15" are visible on the board. A large white rectangular area with a black border is overlaid on the bottom half of the image, containing the text "Label Location".

Label Location
