Sleep Dot

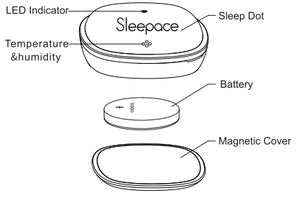

Mini Sleep Tracker

(B502T)

Powered by

Sleepace

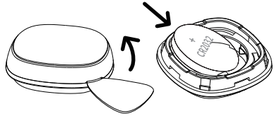

01 Device Description

01

02 Installation Guide

Please open the back cover with the help of the included plectrum (see reference picture), insert the battery with the positive pole facing up and close the device. If the LED is blinking green the battery is installed correctly; if the LED is blinking red, the battery is low and needs to be changed.

02

03 Instruction

① Installation of SleepNote App

There are two ways to download the SleepNote App

A. Scan the QR Code.

B. Search "SleepNote" in App Store Google Play for download.

You will need a smart phone with Bluetooth 4.0 that supports iOS 8.0 or later or Android 4.4 or later.

※ *Please connect Sleep Dot according to the reminders in App after downloaded.*

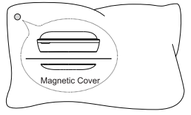

03

② Registration

Login to your SleepNote App and register your account following the prompts.

③ Position

Slide the magnetic cover off, clip your Sleep Dot to the corner of your pillowcase and snap the magnet back on.

Note: The thickness of your pillowcase should be less than (0.08) inches.

04

④ Connecting and Monitoring

Login to your SleepNote App, please connect your Dot via Bluetooth and set your automatic monitoring time from your SleepNote App. Please note: Do not try to connect to your Bluetooth through your phone, but do it through the App once it prompts you to do so.

⑤ Checking Your Daily Report

Login to your SleepNote App, click the "↻" Button in the top right corner of your App's Report page.
The App will sync your data and you will be able to check your daily report.

※ *The Sleep Dot only can store data for latest 7 days. Please make sure to sync your data at least every 6 to 7 days.*

05

04 LED Indicator

Status	Display
Power On	Green LED blinking
Connected to Bluetooth	Green LED On, will turn off once successfully connected
Low Battery	Red LED blinking

※ *The SleepNote App will alert you once the battery power is less than 10%. Please make sure to change the battery in time,*

06

09

FCC statements:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2)this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user' s authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

10

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
