

LD-0001 IM

Size: 420 x 110mm

APP CONTROL with optional REMOTE CONTROL

LED STRIP LIGHTS

INSTRUCTION MANUAL

Thank you for purchasing the LED STRIP LIGHTS. This manual provides more information about this product, please read the instructions carefully before using.

Product Overview

LED STRIP LIGHT x1

USB CABLE x1

CONTROL BOX x1

REMOTE CONTROL x1

INSTRUCTION MANUAL x1

How to install

1. Prepare all the required accessories before you begin the installation.

2. Peel off the adhesive strip from the back side of the LED STRIP LIGHT.

3. Stick the LED STRIP LIGHTS on an even surface.

4. Connect the pins of LED STRIP LIGHTS into socket of the control box (both arrows pointing at each other). Beware of the polarity and direction of the pins of LED STRIP LIGHTS and socket of the control box. LED would not light up if it is not connected with correct polarity and direction.

Note: Connect the LED strip pins socket and the LED strip pins, where both arrows are pointing at each other

5. The sensor of the Infrared (IR) receiver must be placed at the visible range and should be less than 5M from the remote control. The round face of the IR sensor should be faced to remote control without obstacles.

6. Connect the DC plug of the USB cable into DC socket of the Control Box.

7. Connect the USB 2.0 Plug of USB cable into USB socket of your TV or USB outlet of AC adapter (not included)

Control with your phone

Avoid this product from being exposed to sunlight or heat.

Avoid immersing the product in water, otherwise, the electronic parts may be damaged.

Check the product regularly. If any damages are discovered, please stop using immediately, until it is completely repaired in good working condition.

FCC Statement

This device complies with the part 15 of the FCC rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with instructions may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or experienced radio/ TV technician for help.

RF warning statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
