4.2. Pairing Bluetooth Converter to a mobile phone or other device

1. Keep the distance between your Bluetooth Converter and mobile phone (or other devices) within 33 Feet.
2. Power on the Bluetooth Converter.
3. Press and hold the multi-function button for 6 seconds. The LED indicator flashes blue & red to indicate pairing mode.
4. Activate the Bluetooth function on your mobile device and select "Bluetooth Adapter" to pair. The LED indicator turn blue if pairing has been successful.

4.3. Charging your Bluetooth Converter
Use the Micro USB cable provided with this product. Connect the Micro USB plug to the Micro USB charging port on the product positioned at  in the product diagram on page 2. Connect the USB plug to a USB port on a computer or wall adapter to activate charging. The LED will turn red while charging, the light will turn off once fully charged.
****Make sure to keep the Bluetooth Converter charging for a minimum of 3 hours before initial use.**

**Warning:**

- You must select a qualified charger from a regular manufacturer.
- You must charge the Bluetooth Converter if it has been not used for more than 12 months.

7. FCC Statement**FCC STATEMENT**

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
