

ANC Headphone - Manual

(BT9684)

Product Specification :

Bluetooth Version : V5.4 JL7006F8
Support:HFP V1.8 AVRCP V1.6 A2DP V1.3
Bluetooth Range : 10meters
Headphone Battery : 300mAh
Standby Time : up to 200 hours
Working Time : up to 22 hours at 100% volume (ANC off)
Working Time : up to 15 hours at 100% volume(ANC on)
Charging Time : Approx 2.5 hours
Input Voltage : 5V
Microphone : Build-in
Rechargeable : Type-C cable
Speaker Unit : 40mm
Rated input power : 20mW
Max input power : 50mW
Impedance : 32ohm
Sensitivity : 90dB+/-3dB
Frequency Response : 20Hz - 20KHz
Noise reduce : 20-22dB
Net weight :164g

Description of all parts :

1. Volume up or Next song
2. Power on/off or Pause/Play or Calling/Answer/ANC button
3. Volume down or previous song
4. 3.5mm Aux Jack
5. MIC

FCC Caution :

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) his device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
