USER MANUAL

Before using this product, please read this manual carefully. Keep this manual for future reference.

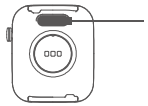

## 1. Appearance

1-Display
2-Power Button
3-Heart Rate Sensor

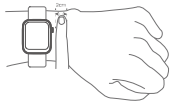

Button Description:
Power Button
Long press: on and off machine

## 2. Charging

- Make sure that you're using the wireless Charging Cable that came with your Watch.
- Use a charger with the rated output of 5V/1A to charge your watch.
- It takes 2.5 hours for the smartwatch to get fully charged.

## 3. Wearing the Watch

- In general, it's always important to give your wrist a break on a regular basis by removing your watch for around an hour after extended wear. We recommend removing your watch while you shower.

## 4. APP Downloading

Scan the QR code or search "Riversongfit Epoch" in Google Play/ apple store to download the APP. pay attention to the phone pop-up box and tap "Agree" to give the permissions to the APP when installing;
After install the app, register and log in account according to a series of instructions.

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance co uld void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two cond itions: (1) This device may not cause harmful interference, and (2) this device must accept any int erference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Note: This equipment has been tested and found to comply with the limits for a Class B digital de vice, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protec tion against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructi ons, may cause harmful interference to radio communications. However, there is no guarantee th at interference will not occur in a particular installation. If this equipment does cause harmful int erference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

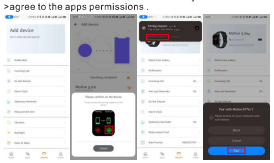

—Connect the equipment into an outlet on a circuit different from that to which the receiver is c onnected.

—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environ ment.

## 5. Connection and pairing

Open APP>device>add device> choose "Motive 5 Pro" in the search list> confirm the connection on your device >agree to the apps permissions .

Note: Keep your device and phone close together, and your device has not been paired by another user or phone.
If the connection is successful, the Bluetooth icon of the watch will light up blue icon

## 6. Unbind device

Open APP>device>Unpair> confirm> go to the Bluetooth settings of the iphone>click "Ignore this device".

## 7. Function introduction

**Control center**
Swipe down on the watch face page to enter the Control Center, where you can access system features of the watch include: Flashlight, Alarm, DND Mode
Keep Screen On for 5 minutes, Brightness, and settings.

**Notifications and App alerts**
Keep the watch connected to your phone, open the app, go to Device >Notification, and enable alerts for apps as needed.

**Note:**
To enable this feature on an phone, you need to add the Riversongfit Epoch app to the allowlist or auto-run list in the phone's background so that the app always runs in the background. If the app is terminated by the phone's background process, the watch will be disconnected from your phone, and you cannot receive app notifications on the watch.

**Add watch faces**
In addition to the built-in watch faces, you can choose online watch faces as desired from the watch face store in the app and synchronize them to the watch. You can also use a photo you took using your phone or use an image in the album as a custom background watch face.

**Sports:** Enter the sports mode (running, walking, cycling, mountain climbing, indoor running) selection interface, and click again to start the corresponding sports mode

**Activity**: count the step counting data of the day. Click up to view the step number record, clear the data at 00:00 a.m, or view it on app. App can set the step number of a day to reach the standard value. When the set step number is reached, the watch will be prompted to meet the standard.

**Sleep monitoring**: Sleep quality has an important impact on human health.
When you are wearing the device while sleeping, it will automatically record sleep information. And you can view sleep duration, deep sleep, light sleep and other data

**Sedentary reminder**: set the sedentary time. When the time comes, the watch will have a vibration reminder, and the interface will have a prompt icon

**Heart rate/Blood oxygen monitoring**:
Heart rate/Blood oxygen is an important indicator of physical condition. Highly-frequent Heart rate/Blood oxygen measurement helps capture more physical condition changes and provide a reference for a healthy lifestyle, stick the watch close to the wrist and the best wearing position is above the wrist bone and arm. The Heart rate/Blood oxygen value can be measured.

**Weather**: if the app is not connected, enter the weather display prompt, and the current weather temperature degree will be displayed after connecting the app
