Failure to observe the following warnings may result in harm either to you or damage to HEALBE GoBe® by Healbe Corporation ("HEALBE") and associated products and mobile applications (collectively, "HEALBE Products") and will void the below warranty on HEALBE Products. Please note that additional information is provided on www.healbe.com and it is your sole responsibility to review all important information before using HEALBE Products. Your purchase and use of HEALBE Products implies that you have read and accepted the terms and conditions both stated in this document and available online at www.healbe.com.

GENERAL INSTRUCTIONS

IMPORTANT: Please see included user manual and www.healbe.com/start for additional information.

STEP 1. Remove the HEALBE GoBe® ("GoBe") from the box. Remove and dispose of the sticker covering the sensor, located on the [back side] of the device.

STEP 2. Charge GoBe fully using the enclosed HEALBE charging pad (allow approximately one hour for the first time). To do this, insert GoBe into the charging pad, making sure to line up the metal pins on the charging pad with GoBe's pinholes (located on the backside of the device). The display will light up with the word "CHARGING" and a yellow light will be on the entire time while the device is charging. When the battery is full, the light will turn off and the word "CHARGING" will no longer be displayed.

STEP 3. Push and hold the button on the side of the device for 3 seconds to turn on the device. GoBe will vibrate and the display will light up with the words "GOBE GOBE". This signals that your initial device activation is complete. In the future, your device will greet you with the word "HELLO".

STEP 4. If you have not already done so, download the HEALBE GoBe mobile application. Once downloaded, open up it to synchronize your device with your smartphone. Follow the instructions in the app.

STEP 5. Fasten the GoBe band onto your wrist in a tight but comfortable position.

STEP 6. You are done! You can now use your GoBe device!

GoBe is rated IPX8 (waterproof), meaning that it is protected from water submersion up to 1.5 meters for up to 30 minutes.

IT IS RECOMMENDED THAT YOU CLEAN THE DEVICE PROPERLY BEFORE EACH AND EVERY USE. GoBe is intended to be worn for long, extended periods of time. Avoid getting dirt and personal care substances such as but not limited to soap, lotion, and creams trapped between the GoBe band and your body as this may lead to discomfort. Do not put GoBe in any washing device such as, but not limited to, a washing machine, dishwasher, or any other machine that will submerge GoBe in liquid substances and expose it to high water pressure for extended periods of time.
