Permissive Change Class II to add host configuration Limited Licensed Modular Transmitter . Output power listed is ERP for Rule Part 22H, EIRP for Rule Part 24E and 27 and conducted for Part 90.

This device contains functions that are not operational in U.S. Territories. This filing is only applicable for US operations.

The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operated in conjunction with any antenna or transmitter, except in accordance with FCC multi-transmitter product procedures. This device is to be used in mobile or fixed applications only. For mobile and fixed operating configurations the antenna gain, including cable loss, must not exceed 2.5dBi for satisfying RF exposure compliance. Under no conditions may an antenna gain be used that would exceed the ERP and EIRP power limits as specified in Part 22H and 24E and 27.

The final product operating with this transmitter must include operating instructions and antenna installation instructions, for end-users and installers to satisfy RF exposure compliance requirements. OEM integrators must ensure that the end user has no manual instructions to remove or install this module. The Grantee is responsible for providing the documentation required for modular use.
