

# Smart Finder Solar

## Quick Start Guide

### Contents in the Package:

- Smart Finder Solar
- Metal key ring
- Micro USB cable

### Setup:

1. Download and install the free Smart Finder app in one of the following 3 ways.

- Scan the QR code on right. It takes you directly to iTunes App Store or Google Play store depending on the type of your mobile device.
- Type in the URL: <http://PallyTech.com/KF-Li/> on the Internet browser on your smartphone or tablet.
- Launch the “App Store” app on Apple devices or Google Play app on Android devices, and search for “smart finder”.

2. Launch the Smart Finder app. If Bluetooth is off the app will prompt you to turn it on.

3. Follow these steps, to pair your Smart Finder with your iPhone, iPod or iPad.

- a. Press "P" button once on the Smart Finder to activate it. The red LED on the Smart Finder will start blinking once per second to indicate that it is ready for connection.
- b. Once the Smart Finder is discovered, its LED blinks at a slow rate of once per 3 seconds. Press and hold the "P" button for 3 seconds to finalize pairing of the Smart Finder. A beep is sounded to confirm pairing success.
- c. Press "+" button in the app to add additional Smart Finder tags.

Works with iPhone 4s/5/5c/5s/6/6plus, iPad 3/4/Air, iPad mini 1/2, iPod touch 5 or later.

Works with Android devices with Bluetooth 4.0 and Android 4.3 or later. Such as Nexus 5, Nexus 7(2013), Samsung Galaxy S3/4/5, Note 2/3/4.

### FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
  - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
