

FCC INFORMATION

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC WARNING:

This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. Modifications not authorized by the manufacturer may void users authority to operate this device.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions.

- (1) this device may not cause harmful interference,
- (2) this device must accept any interference received, including interference that may cause undesired operation

POWER SOURCE

The unit has a built-in Li-polymer rechargeable battery, recharge it before use as below:

- 1.Connect the small plug from the supplied USB connection cable to the Micro USB Port on the end of the rod.
- 2.Connect the other end to any Personal Computer or USB Changer having DC 5V output.
- 3.During charging, the Red Charging Indicator on the end of the rod will light. When finished charging, it will turn off.

Notes:

Your battery will last longer if you following these simple guidelines for charging and storing it.

- A.For charging first time, charge it approximate 10 hours.
- B.Recharge and store the device within the temperature range to 5°C~35°C (40°F~95°F).
- C.Don not overcharges (longer than 24 hours). Excessive charging or running the unit until battery goes empty will damage battery. Battery life will be extended if you keep the battery fully charge.
- D.Battery life naturally shortens slowly over time.
- E.The rechargeable battery incorporated in this product is not user replaceable.

Location of Controls:

- 1.Telescopic Rod
- 2.Cell Phone Holder
- 3.Plastic Adaptor for Cell Phone Holder
- 4.Mounting Screw
- 5.Mounting Nut
- 6.Holding Knob
- 7.Micro USB Port (For charging only)
- 8.Power ON—OFF Switch
- 9.Indictors
- 10.PRESS Button

GENERAL SPECIFICATION

Power Source: Built in Li-polymer rechargeable battery; recharge by DC $\approx$ 5V through Micro USB Port

Length of Telescopic Rod: 9 – 39 inches

Maximum Load: 18 Oz

Compatible BT Cell Phone:

Android 3.0 and newer version

IOS 4.0 and newer version

Accessories:

1 x User's Manual

1 x USB Connection Cable (For charging only)

1 x Cell Phone Holder

1 x Plastic Adaptor (for Cell Phone Holder)

SPECIFICATIONS AND ACCESSORIES ARE SUBJECT TO CHANGE WITHOUT NOTICE
