Magnetic charging connectors

L/R logo

The diagram illustrates the pairing process. On the left, an open case contains two earbuds. In the center, a diagram shows two earbuds, 'L' and 'R', with an LED indicator on the 'R' earbud. A red arrow points from the case to the earbuds. A dashed line with a red starburst icon connects the LED to the text 'Beep pairing'. Below this, a red arrow points down to a smartphone icon labeled 'TECNO Gemini E'. On the right, a screenshot of an iPhone's 'Settings' app shows the 'Bluetooth' section. Under 'MY DEVICES', 'TECNO Gemini E' is listed with a status of 'Connected'. A red arrow points from the smartphone icon to this entry in the settings.

Note: the earbud will automatically reconnect to the paired device by priority. If you want to pair to another device, please firstly disconnect the Bluetooth on your paired device.

Nota: le cuffie si auto connettono con il dispositivo che si ha connesso. Se vuoi connessione con altro dispositivo deve riconnessione con tuo dispositivo che ha connesso.

The diagram illustrates two modes of operation for the earbuds:

- Mode 1 (Auto):** Shows the earbuds in their charging case. An arrow points to a diagram of the earbuds with an LED indicator on the right earbud. A red dashed line with a starburst symbol indicates a light flash. A red arrow points down to a green circle with the text "ON", indicating the earbuds are powered on.
- Mode 2 (Manual):** Shows a hand pressing a button on the side of the left earbud. An arrow points to a diagram of the earbuds with an LED indicator on the left earbud. A red dashed line with a starburst symbol indicates a light flash. A red arrow points down to a green circle with the text "ON", indicating the earbuds are powered on.

1. The earphones automatically turn on (with blue LED light flashing) and start pairing when they are taken out from the charging case.
2. In the shutdown status and when the earphones are not in the charging case, simultaneously press and hold the MFB of both earbuds for 2 seconds to power on (with the blue LED light flashing).

1. Estrarre 2 auricolari dalla custodia di ricarica; si accendono automaticamente (LED luce blu lampeggiante) e entrare nella modalità di associazione.

Mode 1 (Auto)

Mode 2 (Manual)

1. Put the earphones back in the charging case, and they'll shut down automatically.
2. If the earphones are not in the charging case, just press and hold the MFB of both earbuds for 5 seconds to power them off (Mode 2 cannot be conducted during music playing or calling)

1. Mettere gli auricolari nella custodia di ricarica e si spengono automaticamente.
2. Se gli auricolari non si trovano nella custodia di ricarica, è sufficiente tenere a premuto i MFB di entrambi gli auricolari per 5 secondi per spegnerli.
(Modalità 2 non può essere eseguita durante la musica o chiamata).

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
