

Appendix D

1. Test Sample

Photo 1: Front View	Photo 2: Back View
	

2. Test positions

Photo 3: Front side 0mm  A photograph showing a black sensor device mounted on a white foam block. The device is positioned horizontally, facing the front side of the block. A thin wire is visible extending from the top of the device.	Photo 4: Back side 0mm  A photograph showing the same black sensor device mounted on the white foam block, but from the back side. The device is still horizontal, and the wire is visible.
Photo 5: Left side 0mm  A photograph showing the black sensor device mounted on the white foam block from the left side. The device is oriented vertically, with the wire extending upwards.	Photo 6: Right side 0mm  A photograph showing the black sensor device mounted on the white foam block from the right side. The device is oriented vertically, with the wire extending upwards.
Photo 7: Top side 0mm  A photograph showing the black sensor device mounted on the white foam block from the top side. The device is oriented horizontally, with the wire extending from the top.	Photo 8: Bottom side 0mm  A photograph showing the black sensor device mounted on the white foam block from the bottom side. The device is oriented horizontally, with the wire extending from the bottom.
