Test Setup Photographs

LEFT- CHEEK TOUCH

LEFT-TILT 15°

RIGHT- CHEEK TOUCH

RIGHT-TILT 15°

Body Back 10mm

Body Front 10mm

Body back with earphone

Edge 1(Top)

Edge 2(Right)

Edge 3(Bottom)

Edge 4(Left)

DEPTH OF THE LIQUID IN THE PHANTOM—ZOOM IN

Note : The position used in the measurement were according to IEEE 1528-2003

850MHz head  A photograph showing a ruler placed vertically inside a white phantom container filled with a yellow liquid. A red arrow points to the liquid surface, which is at approximately the 15.5 cm mark on the ruler.	850MHz body  A photograph showing a ruler placed vertically inside a white phantom container filled with a yellow liquid. A red arrow points to the liquid surface, which is at approximately the 19.5 cm mark on the ruler.
1900MHz head  A photograph showing a ruler placed vertically inside a white phantom container filled with a clear liquid. A red arrow points to the liquid surface, which is at approximately the 15.5 cm mark on the ruler.	1900MHz body  A photograph showing a ruler placed vertically inside a white phantom container filled with a yellow liquid. A red arrow points to the liquid surface, which is at approximately the 19.5 cm mark on the ruler.
2450MHz head  A photograph showing a ruler placed vertically inside a white phantom container filled with a clear liquid. A red arrow points to the liquid surface, which is at approximately the 15.5 cm mark on the ruler.	2450MHz body  A photograph showing a ruler placed vertically inside a white phantom container filled with a clear liquid. A red arrow points to the liquid surface, which is at approximately the 19.5 cm mark on the ruler.
