BC

CHOKING HAZARD – SMALL PARTS NOT FOR CHILDREN UNDER 3 YEARS. CAUTION THIS PACKAGE CONTAINS SMALL PARTS.

PAIRING THE EARBUDS

Your device must have Bluetooth® capability. Consult your device manufacturer or user manual if you are unsure if your device has this feature.

Turn off any devices that may have been previously paired to the earbuds.

1. Press and hold the power button down (D) for about 5 seconds, first a voice will confirm the earbuds are powered on, and a second voice will confirm that you have entered into pairing mode.
2. Place your device within 3 feet of earbuds, figure 1.
3. Enable Bluetooth® on your device and search for new Bluetooth® devices. Refer to your device's manual on how to enable and operate Bluetooth®.
4. Select BLUETOOTH EARBUDS from the list of Bluetooth® available devices, Figure 2.
5. A voice will notify you when the earbuds are successfully paired
6. You can now stream music wirelessly from your device to your earbuds.

Note: When you restart your earbuds they will automatically pair with your device. A voice will notify you when the earbuds are successfully paired. When device is paired, release the power button immediately after voice prompt of “power on”. Otherwise device will reset and need to repeat step 4 for paring. If not paired succesfully, please turn the headphones off and repeat step1-5.

Note: If the earbuds are out of range, a beep will prompt “device disconnected”. When back in range, a voice will prompt “device reconnected”.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
