REAL WORKING WALKIE TALKIES

HOW TO OPERATE YOUR TRANSCIVER

1. Remove battery door and put in 9V (006P size battery (alkaline recommended).
2. Turn the "On-Off" switch to "On" position. Your transceiver is now ready to operate.
3. Press the "PUSH TO TALK" switch for transmitting.
4. Release "PUSH TO TALK" switch for receiving.
5. When transmitting, speak clearly in a normal voice, holding the set about 3 inches from your mouth.
6. Best transmission and reception are obtained when the antenna is held in a vertical position.
7. Operation range up to 300 feet, line of sight, in open area without obstruction & interference.

CAUTION

- 1. Your transceiver set has been fully adjusted prior to shipment from the factory and be sure not to touch the internal components other than battery.
- 2. When the sound becomes weak, it is time to change battery.
- 3. After use, always return the "On-Off" switch to the "Off" position.
- 4. Keep your set in dry and clean place.
- 5. Non-rechargeable batteries are not to be recharged.
- 6. Exhausted batteries are to be removed from toy.
- 7. The speaker terminals are not to be short-circuited.
- 8. Do not mix old and new batteries.
- 9. Do not alkaline, standard (carbon zinc) or rechargeable batteries.
- 10. Only batteries of the same or equivalent type as recommended are to be used.
- 11. Batteries are to be inserted with the correct polarity.
- 12. Replacement of batteries must be done by an adult.

USER MANUAL

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
