Attn: Director of Certification

Request for Single Modular Approval for FCC ID: 2AEEY-PBLN51822M

Please accept our request for Limited Single Modular Approval in accordance with the requirements of 15.212 as described below.

15.212(a)(1) Single modular transmitters must meet the following requirements to obtain a modular transmitter approval.

- (i) This module does have its own shielding
- (ii) This module has buffered modulation/data inputs.
- (iii) This module has integrated with Power Supply regulator.
- (iv) This module complied with the antenna requirement of section 15.203, because the antenna is PCB pattern antenna.
- (v) This module was tested in a standalone-configuration for radiated emissions
- (vi) The Module will be labeled with its own FCC ID Number.
- (vii) This module complies with the requirements of part 15.207 for AC power line conducted emissions and part 15.249 for operation in 2 402 – 2480 MHz frequency band and must only be used with the antenna that were tested in this filing.
- (Viii) This module complied with any applicable RF exposure requirement.

Sincerely Yours,
