QUICK SETUP GUIDE

Bluetooth FM Transmitter

NS-MBTFMT

Before using your new product, please read these instructions to prevent any damage.

PACKAGE CONTENTS

- Bluetooth FM Transmitter
- 3.5 mm audio cable
- *Quick Setup Guide*

FEATURES

- Bluetooth makes playing music on your car's FM radio easy
- Full 88.1 through 107.9 MHz range ensures you'll find a frequency
- Auto-scan and three memory presets help quickly find your preferred frequencies
- Backlit display lets you set up your audio in low light

SETTING UP THE TRANSMITTER

Plugging into power

- Plug the power connector on your transmitter into your car's power socket. The **Ⓢ** flashes and your transmitter is in pairing mode. The **Ⓢ** continues to flash until you pair a Bluetooth device.

Connecting to your car stereo

You can connect the transmitter to your car's stereo with a 3.5 mm audio cable or by transmitting to your car's radio through an unused FM frequency.

Connecting via 3.5 mm audio cable

- Plug the included 3.5 mm audio cable into the AUX OUT jack on your transmitter and into the AUX IN jack on your car stereo.

Connecting via FM transmission

You can set up FM transmission to your car stereo through an automatic scan or manual tuning.

Auto scan

- Press and hold the **CH** button for three seconds. Your transmitter scans for three unused FM frequencies and saves them into memory presets M1, M2, and M3. The LCD flashes while scanning, then your transmitter tunes to the M1 station and the M1 lights stop flashing.
- To go to a memorized frequency, quickly press and release the **CH** button one or more times to select M1, M2, or M3.

Select a preset, then tune your radio to the same frequency.

Manual tuning

- 1 Tune your vehicle's radio to a weak or unused FM frequency. You should hear static.
- 2 Quickly press and release the **CH** button twice. The LCD flashes (100.0 MHz) and the M1, M2, and M3 icons turn off.
- 3 Press the Previous button or the Next button to select an FM station.
- 4 Press the **CH** button again to confirm. The LCD stops flashing and the channel frequency you selected appears.

Connecting to Bluetooth

- 1 Make sure that the power connector on your transmitter is plugged into your car's power socket. The **Ⓢ** flashes and your transmitter is in pairing mode.
- 2 Make sure that your smartphone is turned on and that Bluetooth is turned on.
- 3 On your phone, search for **NS-MBTFMT**. Your transmitter connects to your phone and the **Ⓢ** stops flashing. You can use your transmitter to control audio playback on your phone.
- 4 To release the Bluetooth connection, press and hold the Play/Pause button for about three seconds.
Note: You can also pair a different Bluetooth device, such as an MP3 player, then use your transmitter to control playback.

USING YOUR TRANSMITTER

Playing audio

- Press the Play/Pause button to start or stop playback.
- Press the Previous button to go to the previous track.
- Press the Next button to go to the next track.

Handling phone calls

- Use your phone to make a call, then press and hold the Phone button to switch the call to your car stereo.
 - Press the Phone button to answer an incoming call.
 - During a call, press the Phone button to end the call.
 - During a call, press and hold the Phone button to switch the call to your phone.
 - To redial the last number, press the Phone button.
- The LCD flashes when making or receiving a call.

WARNING: Do not hang any type of accessory or accessory bracket from the USB port.

ATTENTION : Ne pas pendre un quelconque accessoire ou support d'accessoire sur le port USB.

Charging a USB device

- Plug a USB cable (not included) into the USB port on your transmitter and into the mini USB port on your Bluetooth device.
- Note:** The USB port on your transmitter supports QC3.0 quick charge.

TROUBLESHOOTING

My transmitter doesn't turn on.

- Make sure that the power connector on your transmitter is securely plugged into the car's power socket.
- Make sure that your car is turned on. In some cars, the power sockets only work when the car is turned on.

My transmitter won't connect to my phone.

- Make sure that your phone is turned on and Bluetooth is turned on.
- Shorten the distance between your transmitter and your phone.

I can't make a call from my transmitter.

- You can answer calls and redial the last number using your transmitter. Use your phone to make a call, then press and hold the Phone button to switch the call to your car stereo.

I can't use my transmitter to control my car radio or stereo.

- Make sure that the 3.5 mm audio cable is securely connected to the AUX OUT jack on your transmitter and to the AUX IN jack on your car stereo.
- Make sure that you set your transmitter and the radio to the same unused FM frequency.
- Check the documentation that came with your car stereo to see if you need to change settings to transfer control to your transmitter.
