

Phone calls/Texting

To Make Phone Calls

1. Touch the phone icon.
2. Select SIM1 card or SIM2 card.
3. Click on a contact from your contact list to make a call.

Composing text messages

Maxwest automatically corrects and suggests words as you type.

Cut, Copy and Paste
Touch and hold text content to bring up the magnifying glass, and then slide your finger to move the insertion points. Then choose to cut, copy, or paste. It is very easy to copy text from web pages, email, or text messages.

WLAN

Turn on WLAN

Maxwest supports WLAN Direct which allows Android 4.1 or later devices with the appropriate hardware to connect directly to each other via WLAN without an intermediate access point. Using the APIs, you can discover and connect to other devices when each device supports WLAN Direct, then communicate over a speedy connection across distances much longer than a Bluetooth connection. This is useful for applications that share data among users, such as a multiplayer game or file sharing.

- a. Enter "Settings" interface & Click "More" in WIRELESS & NETWORKS. Then click "WLAN direct" to access Wi-Fi direct feature. Then turn on the feature.
- b. After turning on the feature click "Search" at the bottom and it will display the available devices:
- c. Click "Android_7e33" (in this case specifically) and it will give you option to connect
- d. Click "Connect" to connect and it will pop up an interface to confirm like below:

Camera

- e. Click "OK" and the devices will be connected

Camera

Capture images or record videos and share with family and friends!

Connecting to E-mails

Log into your e-mail accounts.

You may log-in to your e-mail accounts from the phone to access your e-mails.

From the Home screen select "Email" . Enter your email address, password and tap "Next" . Select which type of email account you are setting up and complete settings.(POP3 / IMAP / Microsoft Exchange Account)

You will need to enter your user name, password, and server information depending on the type of email account or you can change the settings by tapping "Manual setup" at the top right corner screen. Tap "Next" and select "OK" to accept the activation notification.

Compose new:

1. Press MENU & select "Compose"
2. Add recipients by typing a name or email address in the "To" field. Matching contacts will appear. Select a recipient or continue typing in the email address to send to multiple contacts.
3. Once finished typing the mail, select "Send" , "Save as draft" , or "Discard" .
4. The reply tab contains "Reply" , "Reply all" and "Forward" options.

Delete message:

1. Go to inbox to display messages.
2. Touch & hold the message you want to delete.
3. Select "Delete" .

File Transfer

Connecting Smartphone to PC

Connect the enclosed Micro USB to USB cable to your smartphone and computer. Once connected successfully, on your phone, slide the top menu down and click on "USB connected" , then, press "Turn on USB storage" button. A new storage named " Nitro 5 " will appear on your "My Computer" . Click in it to review files in the smartphone and/or to transfer documents between devices. When finished, press " Turn off USB storage" button on phone to disconnect. Note: Photos taken with the camera will be saved under " Pictures " folder. Screenshots captured will be saved under " Pictures " folder. Put Music files in the " Music " folder for the files to be played properly.

Screen Capture

Press Volume(-) and power button at the same time to capture "Screenshot" . All captured screenshot will be saved under gallery.

Warning

- Any Changes or modifications not expressly approved by the party responsible or compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

- SAR tests are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. In general, the closer you are to a wireless base station antenna, the lower the power output.

- Before a new model phone is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by the FCC. Tests for each phone are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC.

- For body worn operation, this model phone has been tested and meets the FCC RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that contains no metal and that positions the handset a minimum of 1.0 cm from the body.

- Non-compliance with the above restrictions may result in violation of RF exposure guidelines.
